

Prince George's County

# STORMWATER STEWARDSHIP GRANT PROGRAM

## APPLICANT

The Low Impact Development Center, Inc

## PROJECT

Rain Check Rebate Resource Center at Behnke Nurseries

## GRANT AMOUNT

\$8,423.00

## PROJECT SUMMARY

The Prince George's County Rain Check Rebate program provides eligible applicants the opportunity to receive a reimbursement for installing approved stormwater management practices.

In 2015, the Low Impact Development (LID) Center received an award to create a Rain Check Rebate Resource Center at Behnke Nurseries in Beltsville, Maryland, to engage residents in the rebate program. This resource center compliments a previously awarded project in 2014 where the LID Center implemented a Rain Check Rebate demonstration of all seven of the approved stormwater management practices on the property.

The Rain Check Rebate Resource Center at Behnke Nurseries is an eye-catching display showcasing the County's rebate program intended to engage county residents, particularly those already interested in gardening and home improvement activities. The project consists of a cable display with acrylic signage panels installed adjacent to Behnke's existing resource center.
