Grants: Upcoming Deadlines and Open Programs

The Chesapeake Bay Trust's grant-making strategies are shaped by three core objectives: environmental education, demonstration-based restoration, and community engagement. We look to these objectives as basic touchstones for developing our programs, engaging new partners, and communicating about our work.

[Anne Arundel County Watershed Restoration Grant Program: March 4, 2021, at 4pm EST](#)

The Anne Arundel County Watershed Restoration Grant Program is a partnership between the Anne Arundel County Bureau of Watershed Protection and Restoration, the City of Annapolis, and the Chesapeake Bay Trust. This program funds projects to reduce pollutants through the implementation of watershed restoration practices. Projects must accomplish on-the-ground restoration that treats rainwater runoff from impervious surfaces or demonstrates the accomplishment of another metric that will help the County and City meet local water quality and runoff reduction improvement goals.

[Chesapeake Conservation Corps Member Application: March 4, 2021, at 4PM EST](#)

The Chesapeake Conservation Corps is a partnership between the Maryland Department of Natural Resources, BGE an Exelon Company, the National Park Service, and the Chesapeake Bay Trust. The Corps is a leadership program that provides young adults (ages 18-25) with hands-on environmental and leadership experience through placements with nonprofit or government agencies for one-year terms of service in the Chesapeake Bay region.

[Green Streets, Green Jobs, Green Towns Grant Program: March 4, 2021, at 4PM EST](#)

The Green Streets, Green Jobs, Green Towns Grant Program is a partnership between the U.S. Environmental Protection Agency (EPA), the Maryland Department of Natural Resources, and the Chesapeake Bay Trust. This program is designed to help communities develop and implement plans that reduce stormwater runoff, increase the number and amount of green spaces in urban areas, improve the health of local streams and the Chesapeake Bay, and enhance quality of life and community livability.

[Bidder Opportunity - Contractual Services for the Regional Outdoor Learning Network: March 25, 2021, at 4PM EST](#)

The Chesapeake Bay Trust seeks qualified contractors to: 1) provide network development support to two networks in Pennsylvania and West Virginia participating in the Outdoor Learning Network Initiative and 2) implement phase 2 of the Regional Outdoor Learning Network (ROLN) which will include applying the year one recommendations from a landscape assessment to launch ROLN and develop the next iteration of a network map.

Charles County Forestry: Rolling deadline

The Charles County Forestry Grant Program is a partnership between the Charles County Government and the Chesapeake Bay Trust that aims to fund projects to implement cost-effective reforestation projects in the County to increase tree canopy and as a result create forest habitat and improve water quality in the county's local watersheds and ultimately the Chesapeake Bay.

Community Engagement and Restoration Mini Grant Program: Rolling deadline

The Community Engagement and Restoration Mini Grant Program is designed to engage Maryland residents in activities that enhance communities, engage residents, and improve natural resources. This program funds small-scale activities such as tree plantings, rain gardens, stream cleanups, and storm drain stenciling, among others.

Prince George's County Rain Check Rebate: Rolling deadline

The Prince George's County Rain Check Rebate Program offers rebate incentives to homeowners, businesses, and others to install practices that will improve stormwater runoff quality, reduce pollution, and improve local stream and river health. Seven types of stormwater practices are eligible for rebates: rain barrels, cisterns, rain gardens, urban tree canopy, pavement removal, permeable pavement, and green roofs.

Sponsorship Program: Rolling Deadline

The Sponsorship Program is designed to support events that will increase awareness and knowledge among event participants about issues pertaining to restoration and protection of the natural resources of the Chesapeake and/or Maryland's other watersheds. The Trust will also entertain requests that promote the following major sources of revenue for the Trust: 1) the "Treasure the Chesapeake" license plate program; 2) the Chesapeake and Endangered Species Tax Check-off on the Maryland State income tax form; and 3) the Maryland Outdoor Recreation and Clean Water Fund.

For questions concerning any of the above open opportunities, please refer to the specific webpage for the Program Officer assigned to the Award Program.

The Chesapeake Bay Trust - Fiscal Year 2021 Awards

The Chesapeake Bay Trust has a rigorous grant review process: every proposal submitted over \$5,000 is sent to members of a Technical Review Committee (TRC) and is reviewed and scored quantitatively by at least three external individuals who are experts in their fields. The Board of Trustees meets 4 times per year to review and approve all TRC recommended proposals. Proposals for \$5,000 or less are reviewed by two or more technical experts on the Chesapeake Bay Trust program team. Read the full post [here](#).

About The Trust

[The Chesapeake Bay Trust](#) is a nonprofit grant-making organization dedicated to improving the watersheds of the Chesapeake Bay, Maryland Coastal Bays, and Youghiogheny River through grant programs, special initiatives, and partnerships that support K-12 environmental education, on-the ground watershed restoration, community engagement, and the underlying science of these three realms.

Since 1985, the Trust has awarded more than \$130 million in grants to local municipalities, nonprofit organizations, schools and public agencies throughout the Chesapeake Bay Watershed. For nearly two decades, the Trust has received a "4-star rating" from Charity Navigator, the nation's leading independent evaluator of nonprofit organizations. About 90% of the Trust's expenditures are directed to restoration and education programs.
