

Prince George's County Community Gardens Mini Grant Program-Sketch Guidelines

The Prince George's County Community Gardens Mini Grant Program requires all applicants to submit a sketch of the proposed garden area. The second page includes grid lines and a scale as a tool for your use. You are welcome to develop your own template which can be hand-drawn or created digitally. Please refer to the Design Elements outlined below.

Design Elements to Include in your Sketch

- ☐ Garden area (total square feet)
 - *As a reminder, the minimum size is 400 square feet (1,000 square feet for food forests).*
- ☐ Location of water source
 - Include distance from the garden (recommended to be within 100 linear feet).
- ☐ Street Name
- ☐ Plant species, quantities, and spacing distances
 - Please include labels or a key for your plant species.
 - *As a reminder, eligible plants include plants native to Maryland; non-native, non-invasive edible plants and cover crops; and non-native, non-invasive plants used to produce fiber, basket materials, and teas/tinctures or other herbal products.*
- ☐ Buildings/structures with distances from the garden
- ☐ Type of garden bed
 - *As a reminder, gardens can be planted in raised beds or directly in the ground.*

Scale: one square = 1 foot
