Introduction to the Chesapeake Bay Trust

The Chesapeake Bay Trust (Trust) is a nonprofit, grant-making organization dedicated to improving the bays, streams, rivers, forests, parks, and other natural resources of our local ecosystems, from the Chesapeake to the Coastal Bays to the Youghiogheny River. The Trust, supported in large part by Maryland’s Chesapeake Bay License Plate and partnerships with other regional funders, engages and empowers diverse groups to take actions that enrich natural resources and local communities of the Chesapeake Bay region. Since 1985, the Trust has awarded over $120 million in grants to municipalities, nonprofit organizations, schools, and public agencies throughout the Chesapeake Bay watershed.

As part of this effort, the Chesapeake Bay Trust is proud to partner with BGE an Exelon Company to offer the Chesapeake Conservation Corps Diversity Fellowship opportunity.

Why Offer a Diversity Fellowship?

The Chesapeake Bay Trust and BGE, an Exelon Company, are proud to announce a new Diversity Fellowship available for Chesapeake Conservation Corps participants beginning in 2021.

The mission of the Chesapeake Bay Trust is to promote the public awareness and participation of all residents in the restoration and protection of our region’s natural resource. The chance of a healthy Chesapeake Bay increases when more residents care about their local environment and engage in action to protect it. Enhancing diversity in the environmental field (“the green workforce”) is essential to developing responses and solutions to the complex environmental challenges we face as a society.

Today’s green workforce lacks a true diversity of various voices. Due to the Trust’s long-standing goal to advance the influx of young talent from all communities and demographics in the State and to increase accessibility to green careers, we wish to play a bigger role in improving the diversity and inclusiveness of the green career workforce.

The Trust is expanding its efforts to increase diversity, address the financial challenges of historically underserved communities, and build a more accessible career pathway to the green workforce. In partnership with BGE, an Exelon Company, the Trust is offering a new Diversity Fellowship to assist Corps Members with the financial challenge of a year of service.

In creating this opportunity, our partnership commits to using our resources to lessen the disproportionate financial burden that has been placed on certain communities. The Trust hopes this Diversity Fellowship will increase access to the Chesapeake Conservation Corps program and expand its reach allowing more young individuals to make the choice to apply an easier one financially.
