Linganore High School	\$3,113	for support of an invasive removal and native planting project with 200 high school students from Linganore High School.
Potomac Conservancy	\$38,000	for 100% designs for a streambank restoration project on Beaver Dam Creek in Frederick County, MD.
Friends of Baker Park, Inc.	\$43,500	for costs associated with implementing a Hydrodynamic Separator at Culler Lake.
Friends of Baker Park, Inc.	\$813.00	for support of the Good Neighbor Forum.

<b>Garrett</b>		
Route 40 (Elementary) School	\$1,088	for costs associated with 135 students implementing a native planting and hive installation to repair the declining habitat in their schoolyard.
Swan Meadow School	\$1,500.00	for support of professional development, stream investigation costs, and student led action project supplies to support the Restore and Explore your Schoolshed Program.
Northern Garrett High School	\$1,500.00	for support of professional development, stream investigation costs, and student led action project supplies to support the Restore and Explore your Schoolshed Program.
Savage River Watershed Association, Inc.	\$15,000.00	for capacity building support.
<b>Harford</b>		
Eden Mill Nature Committee, Inc	\$1,000.00	for lumber supplies to improve Eden Mill Nature Center's Polly Pot Trail's erosion issue and make the trail handicap accessible.
C. Milton Wright High School	\$1,500.00	for support of professional development, stream investigation costs, and student led action project supplies to support the Restore and Explore your Schoolshed Program.

Deerfield Elementary School	\$1,500.00	for support of professional development, stream investigation costs, and student led action project supplies to support the Restore and Explore your Schoolshed Program.
North Harford High School	\$1,500.00	for support of professional development, stream investigation costs, and student led action project supplies to support the Restore and Explore your Schoolshed Program.
Aberdeen High School Green Team	\$1,500.00	for support of professional development, stream investigation costs, and student led action project supplies to support the Restore and Explore your Schoolshed Program.
Joppatowne High School	\$1,500.00	for support of professional development, stream investigation costs, and student led action project supplies to support the Restore and Explore your Schoolshed Program.
William S. James Elementary School	\$1,600.00	for fourth grade students at William S. James Elementary School to participate in the AquaPartners field experience.
Luna's House, Inc.	\$24,802	for costs associated with impervious surface removal and planting at Luna's House.
<b>Howard</b>		

Dunloggin Middle School	\$1,400.00	for the 7th grade students at Dunloggin Middle School to remove invasive plant species growing around the streams near their school, and to replace them with native plant species.
Hollifield Station Elementary School	\$1,470.00	for support of professional development, stream investigation costs, and student led action project supplies to support the Restore and Explore your Schoolshed Program.
Hammond Elementary School PTA	\$1,500.00	for support of professional development, stream investigation costs, and student led action project supplies to support the Restore and Explore your Schoolshed Program.
Howard County Public Schools	\$1,500.00	for support of professional development, stream investigation costs, and student led action project supplies to support the Restore and Explore your Schoolshed Program.
Atholton Elementary School PTA	\$1,500.00	for support of professional development, stream investigation costs, and student led action project supplies to support the Explore and Restore your Schoolshed program.
Howard County Office of Environmental Sustainability	\$19,000	for 100% designs for three bioretention cells/curb bump outs in in Ellicott City, MD.
Center for Watershed Protection, Inc.	\$2,500	for rain barrels, signage, monitoring and trash clean-up supplies to engage Ellicott City residents and local businesses in a series of community activities.

Howard County Conservancy, Inc.	\$26,848	for support of the Howard County Watershed STARS Program.
Alliance for the Chesapeake Bay (VA office)	\$47,365.00	for support of the READY for RiverWise Communities project.
Atholton Elementary School	\$499.00	for 75 fifth grade students to participate in a stream cleanup for the Patapsco River.
<b>Kent</b>		
Galena Elementary School- Kent County Public Schools	\$1,500.00	for support of professional development, stream investigation costs, and student led action project supplies to support the Restore and Explore your Schoolshed Program.
Washington College Center for Environment & Society	\$29,737	for support of the Integration of the Chester River Watershed Observatory and Rivers to Bay Program in Kent and Queen Anne's County Schools.
Town of Betterton, Maryland	\$3,543	for native plants, mulch, planting supplies, signage and educational handouts for the installation of a demonstration rain garden and educational display at Betterton Community Ark Park.

Eastern Shore Land Conservancy	\$33,830	for support of the Agriculture in the 21st Century, Agro-Ecology Program for Kent County Schools.
Chester River Association	\$40,000	for capacity building support.
Town of Betterton, Maryland	\$91,045.00	for costs associated with design and Phase I implementation for a Green Street on Wheeler Avenue in Betterton.
Echo Hill Outdoor School	\$988.00	for supplies to implement an improved environmental education program at Echo Hill Outdoor School.
<b>Montgomery</b>		
Montgomery County Department of Environmental Protection	\$1,045	for developing a geocaching program throughout Montgomery County, MD at various stormwater management facilities.
Brown Station Elementary School	\$1,046	for 73 students to participate in a Flag Pond field experience and various education activities. Funds support partial costs of program fees, transportation and materials

Audubon Naturalist Society of the Central Atlantic States, Inc.	\$1,250.00	for young students to gain interest in nature during monthly nature walks.
Earle B Wood Middle School	\$1,500.00	for support of professional development, stream investigation costs, and student led action project supplies to support the Restore and Explore your Schoolshed Program.
Sherwood High School	\$1,500.00	for support of professional development, stream investigation costs, and student led action project supplies to support the Restore and Explore your Schoolshed Program.
Quince Orchard High School	\$1,500.00	for support of professional development, stream investigation costs, and student led action project supplies to support the Restore and Explore your Schoolshed Program.
Bethesda Elementary School	\$1,500.00	for support of professional development, stream investigation costs, and student led action project supplies to support the Restore and Explore your Schoolshed Program.
Captain James Daly Elementary School	\$1,500.00	for support of professional development, stream investigation costs, and student led action project supplies to support the Restore and Explore your Schoolshed Program.
Burning Tree Elementary School	\$1,500.00	for support of professional development, stream investigation costs, and student led action project supplies to support the Restore and Explore your Schoolshed Program.

Paint Branch High School	\$1,500.00	for support of professional development, stream investigation costs, and student led action project supplies to support the Restore and Explore your Schoolshed Program.
Silver Spring International Middle School	\$1,500.00	for support of professional development, stream investigation costs, and student led action project supplies to support the Restore and Explore your Schoolshed Program.
Seneca Valley High School	\$1,500.00	for support of professional development, stream investigation costs, and student led action project supplies to support the Restore and Explore your Schoolshed Program.
Argyle Middle School	\$1,837.00	for support of an outdoor classroom at Argyle Middle Schools.
Neelsville Middle School	\$1,877	for support of a Trout in the Classroom project.
Izaak Walton League of America (The)	\$139,370	for costs associated with implementing conservation landscapes, rain gardens and canopy tree plantings will be at 12 homes in 4 targeted neighborhoods in the Muddy Branch Watershed in Montgomery County.
Dr. Martin Luther King, Jr. Middle School	\$2,025	for partial program and transportation costs for 60 sixth, seventh and eighth-grade students in the Environmental Science Club to attend a field experience at the Chesapeake Bay Foundation's Karen Noonan Center, monitor their local stream, and participate in Raise & Release Programs.

Paint Branch High School	\$2,315	for support of a Smith Island Education Center field experience for 150 students.
Rock Creek Conservancy	\$25,000.00	for capacity building support.
Westbrook Elementary School	\$3,090	for 22 fifth grade students from the Aqua Eagles program at Westbrook Elementary School to participate in a series of educational field experiences and projects.
Green Casa Maryland	\$3,450	for partial costs of rain garden, dry wells and outreach supplies to incorporate water quality projects in the surrounding landscape of a demonstration sustainable building in Cabin John Park. Please remember to include the Trust's license plate logo on signage and appropriate outreach materials.
Spark Matsunaga Elementary School	\$3,746	for half program and transportation costs for 190 students to attend a field experience at the Smithsonian Environmental Research Center.
City of Gaithersburg	\$35,000	for 100% designs of a streambank restoration project.
Montgomery Parks Foundation	\$490.00	for the support of youth volunteers in Sligo Creek clean ups.

Rock Creek Conservancy	\$5,000.00	for support of the Rock Creek Extreme Clean Up.
Roberto Clemente Middle School	\$5,000.00	for support of a 3-day Chesapeake Bay Foundation field experience and individual student action projects for up to 140 students.
Westbrook Elementary School	\$5,000.00	for 71 fourth grade students from Westbrook Elementary School's Stream Team to participate in a series of field trips that provide experience to supplement their action projects. Funds are provided for partial field trip fees and travel fees.
Potomac Conservancy	\$896.00	for partial native plants, supplies and personnel costs to engage 30 community members with a Canal Stewards Event at the River Center on July 27th and the capstone project at Glen Echo Park.
Montgomery County Public Schools Outdoor Environmental Education Programs	\$974.00	for supplies and personnel costs to provide a professional development training on how to build a dynamic watershed model and lead watershed lessons on land use to 10 teachers in Montgomery County.
Rock Creek Conservancy	\$998.00	for supplies including pet waste disposable bags, logo imprints, and shipping and handling to conduct workshops for a pilot project to study the effectiveness of installing pet waste collection stations in four Montgomery County communities.
<b>Pennsylvania</b>		

City of Lancaster, Pennsylvania	\$100,000.00	for costs associated with implementation of the North Marshall Green Infrastructure project.
Schuylkill River Greenway Association	\$2,090	for partial program fees and transportation costs for Schuylkill River Greenway Association to conduct an environmental education field experience with 25 high school students.
Stewards of the Lower Susquehanna	\$20,000.00	to increase unrestricted revenue in order to become more financially stable and less dependent upon grants.
Susquehanna Greenway Partnership	\$20,000.00	for capacity building support.

Huntingdon County Conservation District	\$3,265	for partial native plants and shrubs, mulch, signage and other supply costs for the creation of a rain garden in their Outdoor Classroom at Huntingdon Area Middle School.
Danzante, Inc.	\$4,272	for costs associated with a Chesapeake Bay Foundation field trip to Clagget Farm, a rain garden project, and rain barrel supplies for 20 students.

National Audubon Society, Inc. (Audubon Pennsylvania)	\$4,920	for 170 fifth and sixth grade students from Devers and Ferguson K-8 schools to participate in Audubon Pennsylvania's Learn, Explore, and Restore Program.
Wrightsville Borough	\$47,118.00 \$47,118.00 \$0.00	for costs associated with designing the Front Street Green Retrofit project.
Borough of Gettysburg	\$47,262.00	for costs associated with completing stormwater improvement designs for the Gettysburg Inner Loop.
Schuylkill Headwaters Association Inc.	\$5,000.00	for 248 middle and high school students to participate in a wetland planting as part of the Blue Mountain Green Vision project.
Schuylkill Center for Environmental Education	\$5,000.00	for partial costs of personnel and supplies including copying, printing, and resource kits to implement a two-day professional development Teacher Training Institute for the underserved teachers.
Pennsylvania Association of Environmental Educators (PAEE)	\$5,000.00	for scholarships for 25 students to attend the Pennsylvania Association of Environmental Educators Conference.
<b>Prince George's</b>		

Chesapeake Bay Foundation, Inc.	\$1,000.00	for supplies to create an irrigation runoff collection and recirculation system around the tree nursery at the Chesapeake Bay Foundation's Clagett Farm.
Anacostia Watershed Society	\$1,000.00	for partial costs of stormdrain mural supplies for 185 students from Thomas Stone Elementary School, Mt. Rainier Elementary School and Joe's Movement Emporium after school group to paint 10 stormdrains across Mt. Rainier with the guidance of local artists over three days.
Bond Mill Elementary School	\$1,500.00	for support of professional development, stream investigation costs, and student led action project supplies to support the Restore and Explore your Schoolshed Program.
Baden Elementary PTA	\$1,500.00	for support of professional development, stream investigation costs, and student led action project supplies to support the Restore and Explore your Schoolshed Program.
Drew Freeman Middle School	\$1,500.00	for support of professional development, stream investigation costs, and student led action project supplies to support the Restore and Explore your Schoolshed Program.
Community-Based Classroom	\$1,500.00	for support of professional development, stream investigation costs, and student led action project supplies to support the Restore and Explore your Schoolshed Program.
Lewisdale Elementary School	\$1,500.00	for support of professional development, stream investigation costs, and student led action project supplies to support the Restore and Explore your Schoolshed Program.

DuVal High School	\$1,500.00	for support of professional development, stream investigation costs, and student led action project supplies to support the Restore and Explore your Schoolshed Program.
Beltsville Academy	\$1,500.00	for support of professional development, stream investigation costs, and student led action project supplies to support the Restore and Explore your Schoolshed Program.
DuVal High School	\$1,500.00	for support of professional development, stream investigation costs, and student led action project supplies to support the Restore and Explore your Schoolshed Program.
Laurel Elementary School	\$1,500.00	for support of professional development, stream investigation costs, and student led action project supplies to support the Restore and Explore your Schoolshed Program.
Alice Ferguson Foundation	\$15,000	for support of the Schoolyards as Classrooms Program in Prince Georges County.
City of College Park	\$150,886	for costs associated with implementation of a green park.
Prince George's County Public Schools, William Schmidt Outdoor Education Center	\$16,286	for support of the Chesapeake Bay Themed Environmental Literacy Program.

Town of Forest Heights	\$18,820	for costs associated with a tree planting project at Forest Heights Elementary School.
Cora L. Rice Elementary School	\$2,274	for 50 students to participate in a field experience on the Shenandoah River as part of a year long watershed study.
G. James Gholson Middle School Green Team	\$2,297	for 60 seventh and eighth grade students to participate in the creation of a rain garden at G. James Gholson Middle School.
Walking On Water Inc.	\$2,300	for 190 students to participate in the rain water initiative at Templeton Elementary School.
William S. Schmidt Center	\$2,760	for costs of educational signage for the Stream Ecology Team.
Town of Forest Heights	\$202,940	for costs associated with a green street implementation project on Rolph Drive in the Town of Forest Heights.
Anacostia Watershed Society	\$23,000	for support of the Stream Stewards Program with Prince Georges County schools.

City of Mount Rainier	\$242,500	for costs associated with implementing a green street project on Buchanan Street in the City of Mount Rainier.
Alliance for the Chesapeake Bay, Inc.	\$25,982	for support of the Anacostia Congregational Partners project.
Fusion Partnerships	\$3,278	for involvement of 40 students in an environmental education program to teach connections between conservation landscaping and health of local waterways.
Alice Ferguson Foundation	\$42,905.00	for support of the Inspiring Millennials to Take Control of their Trash project.
University of Maryland College Park	\$45,154.00	for costs associated with the Branch Avenue Urban Garden.
The Low Impact Development Center, Inc.	\$46,935.00	for costs associated with designing a green street for Cherrywood Lane in Greenbelt, MD.
City of College Park	\$80,960.00	for costs associated with designing and implementing a two bioswales along Rhode Island Avenue in College Park.

Laurel Elementary School	\$803.00	for 76 students to participate in the Patuxent River Park Water Quality Program.
CASA of Maryland, Inc.	\$910.00	for solar panel installation supplies and student travel scholarships costs to implement a new Solar Panel Installation Course for low-income immigrants into their summer Vocational Training Program.
<b>Queen Anne's</b>		
Grasonville Elementary School	\$1,200	for full program costs for 80 fourth grade students to attend a field experience at the Chesapeake Bay Environmental Center.
Queen Anne's County High School	\$1,500.00	for support of professional development, stream investigation costs, and student led action project supplies to support the Restore and Explore your Schoolshed Program.
Kennard Elementary	\$2,985	for 168 thirrd grade students to participate in a Sultana sailing experience and to raise eels in the classroom and relase them during their Sultana cruise.
Centreville Middle School	\$3,151	for support of the Centreville Middle School Gravel Run Restoration and Monitoring Project.

Grasonville Elementary School	\$4,281	for 150 students in 4th and 5th grade to take part in wetland design and creation on school property.
Stevensville Middle School	\$5,000.00	for partial costs of program fees for 175 6th grade students to attend a NorthBay field experience.
Waldorf School of Baltimore	\$565.00	for 26 students to participate in a Wye Island educational field experience.
Narrows Pointe Council of Unit Owners, Inc.	\$74,924	for costs associated with construction of a living shoreline at the Narrows Pointe community.
<b>Saint Mary's</b>		
Dr. James A. Forrest Career and Technology Center	\$1,500.00	for support of professional development, stream investigation costs, and student led action project supplies to support the Restore and Explore your Schoolshed Program.
Chopticon High School	\$1,500.00	for support of professional development, stream investigation costs, and student led action project supplies to support the Restore and Explore your Schoolshed Program.

Esperanza Middle School	\$2,477	for supplies for students to complete a number of projects suggested in Schoolyard Report Card including painting stormdrains, creating recycling and energy conservation awareness materials and planting natives.
St. Mary's River Watershed Association	\$25,000.00	for capacity building support.
St. Mary's County Public Schools	\$1,500.00	for support of professional development, stream investigation costs, and student led action project supplies to support the Restore and Explore your Schoolshed Program.
<b>Somerset</b>		
Maryland Department of Natural Resources (DNR)	\$1,250.00	for costs of supplies and signage for the creation of the Monie Bay Water Trail encompassing 3 trails equipped with over sixteen signs to educate about the fauna, flora, and maritime history of the local environment.
Somerset Intermediate Green Committee	\$1,500.00	for support of professional development, stream investigation costs, and student led action project supplies to support the Restore and Explore your Schoolshed Program.
<b>Statewide</b>		
Blue Water Baltimore	\$114,342.00	for costs associated with a street tree planting project.

University of Maryland	\$14,996	for support of the Chesapeake Septic-Owner Stewardship project.

The Low Impact Development Center, Inc.	\$24,999	for costs associated with implementation of training workshops and webinars on green streets.

Maryland Agricultural Education Foundation, Inc.	\$25,000.00	for support of the Chesapeake Food, Farm, Bay program for grades 3-8.
University of Maryland Center for Environmental Science (UMCES)	\$3,106	for the publication of water sampling protocols of non-tidal streams.
Interstate Commission on the Potomac River Basin (The)	\$4,511	for partial costs of watershed model supplies to support four two-day professional development workshops for 40 teachers in Prince Georges, Montgomery, and St. Mary's Counties.
Baltimore Lab School	\$4,635	for 95 students to participate in a series of Bay educational field experiences.
University of Maryland Center for Environmental Science (UMCES)	\$44,174.00	for support to expand the pilot survey, improve it's use, and inform a final weighting of behaviors (considering probability, penetration, and impact data).
Alliance for the Chesapeake Bay, Inc.	\$5,000.00	for 15 attendee scholarships and printed programs for the 2013 Watershed Forum.
Alice Ferguson Foundation	\$5,000.00	for support of a formative research initiative to advance the number of groups designing and implementing sustainable litter reduction programs.

Ocean Conservancy - Maryland cleanup	\$500.00	for support of the stream clean up projects for the Day to Serve.
<b>Talbot</b>		
Environmental Concern Inc.	\$1,000.00	for native plants and supplies to implement a rain garden on Environmental Concern's campus.
Chesapeake Bay Maritime Museum	\$1,619.00	for partial program, transportation and water quality monitoring supply costs for 50 ninth, eleventh and twelfth grade Saint Michaels High School students to learn about oyster restoration efforts, water quality and Chesapeake Bay health at Phillips Wharf Environmental Center.
Town of Easton	\$13,557	for costs associated with a tree planting project in the Town of Easton.
Phillips Wharf Environmental Center	\$16,897	for the full design costs of bioretention swales, rain gardens, a living shoreline, and permeable materials at the Phillips Wharf Environmental Center's Oyster House site.
Town of Easton	\$20,877	for 100% plans for a bioretention practice in Easton, MD on a 2.4 acre site.

Midshore Riverkeeper Conservancy, Inc.	\$25,000	for capacity building support.
Pickering Creek Audubon Center	\$29,923	for support of the Audubon Watershed Experience for Talbot County High Schools.
Midshore Riverkeeper Conservancy, Inc.	\$3,130	for costs for Midshore Riverkeeper Conservancy's 2014 State of the Rivers Report Card and outreach event. Funds will cover graphic design, printing, mailing, and hall rental.
Talbot County Department of Public Works	\$3,882	for costs associated with planting marsh grasses at the Neavitt Public Landing.
Midshore Riverkeeper Conservancy, Inc.	\$30,000.00	for support of the Lawn Fertilizer Use Behavior Change project.
Midshore Riverkeeper Conservancy, Inc.	\$34,000	for costs associated with creation of a wetland at RTC Park in Easton.
Talbot County Public Schools	\$4,939	for partial costs for 282 sixth-grade students to attend a field experience at the Pickering Creek Audubon Center and complete a planting project at Easton Middle School.

Midshore Riverkeeper Conservancy, Inc.	\$49,520.00	to create 100% construction drawings of bioreactors and denitrification walls.
Talbot County Public Schools	\$5,000.00	for support of Talbot County School's Environmental Literacy Program. Funds support program fees and transportation.
Phillips Wharf Environmental Center	\$9,392.00	for costs associated with implementation of a living shoreline at the Phillips Wharf's Oyster House.
Midshore Riverkeeper Conservancy, Inc.	\$957.00	for partial supplies and contractual costs to utilize a targeted information campaign to help educate the farm community on 3 new nutrient reduction techniques; wood-chip bioreactor, denitrification wall, and phosphorus removal structure.
Midshore Riverkeeper Conservancy, Inc.	\$97,113.00	for costs associated with evaluating the efficacy of the woodchip bioreactor and the denitrification wall.
Midshore Riverkeeper Conservancy, Inc.	\$985.00	for transportation, substitute, supplies, and professional development costs for 60 high school students participate in a field experience at Horn Point and implement an action project as a pilot for a new environmental education program at Midshore Riverkeeper Conservancy.
<b>Virginia</b>		

Hanover-Caroline Soil and Water Conservation District	\$1,350.00	for partial program, transportation and supply costs associated with water quality monitoring equipment and field trip costs for 1800 sixth grade students.
Wilber Pence Middle School	\$1,770	for 25 students to attend a Smith Island Education Center field experience.
Rivanna Conservation Alliance	\$10,000.00	for capacity building support.
City of Charlottesville, Virginia	\$182,035	for costs associated with implementation of a bioretention area and permeable pavers at the Charlottesville High School.
Virginia Institute of Marine Science, School of Marine Science, College of William & Mary	\$2,176	for 400 students in Gloucester, Mathews and York Counties to participate in meaningful Chesapeake Bay experiences that are integrated into the classroom curriculum through the Chesapeake Studies program.
Frost Middle School	\$2,500	for costs associated with a schoolyard habitat project engaging 565 students at Frost Middle School.
Thoroughgood Elementary School	\$233	for 24 first-grade students to take monthly trips to maintain an oyster garden.

College of William and Mary	\$25,000.00	for costs associated with creation of a white paper on lowering flood Insurance rates with green infrastructure.
Friends of the North Fork Shenandoah River	\$28,000	to grow and prosper to be a more more effective advocate for the river.
Virginia Tech	\$3,106	for 20 gifted students to participate in a course taught at Virginia Tech's Governors School of Agriculture designed to allow students to learn and apply STEM concepts towards how land use impacts water quality.
Blue Ridge Land Conservancy	\$3,150	for personnel and supplies for 380 fourth grade students to participate in Chesapeake Bay Day field experience.
Belvedere Elementary School	\$3,380	for partial program and transportation costs for 108 fifth grade students to attend a Living Classrooms field experience.
James River Association	\$3,610	for 64 high schools students to participate in the Action & Stewardship in the James River Watershed program.
Friends of the Rappahannock	\$3,641	for partial transportation, supplies and personnel costs for professional development workshops and an authentic MWEE for 170 sixth grade students in an effort to refine the program at Richmond County Intermediate School and expand it into Lancaster Middle School.

Spring Hill Elementary School	\$4,346	for support for the "Follow the Water" program for 125 fourth-grade students.
Chesapeake Experience	\$4,849	for a ten-day teacher professional development training.
Chesapeake Experience	\$4,974	for personnel and supplies to support a Meaningful Watershed Education experience for all 6th graders in Newport News Public Schools.
Elizabeth River Project, The	\$41,000.00	for capacity building support.
Friends of the Rappahannock	\$41,000.00	for capacity building support.
James River Association	\$41,000.00	for capacity building support.
Broadway High School	\$435.00	for students in the Biology II Survey class at Broadway High School to participate in a canoe field experience.

Rockingham County Public Schools	\$5,000.00	for a three day professional development at Port Isabel.
Friends of the North Fork Shenandoah River	\$5,000.00	for 20 teachers to participate in the North Fork Shenandoah to the Chesapeake Bay program.
Boxerwood Education Association	\$5,000.00	for program and transportation costs for 310 students to attend a Chesapeake Bay Foundation sponsored field experience as well as a trout tank and a trout chiller kit.
Prince William County Public Schools Office of Student Learning	\$5,000.00	for personnel costs for field investigators to implement "From the Mountains to the Estuary: From the Schoolyards to the Bay" environmental education program for approximately 6,300 sixth grade students across the 20 middle schools in Prince William County.
Potomac Riverkeeper Network	\$50,000.00	for capacity building support.
<b>Washington</b>		
Fountaindale School for the Arts and Academic Excellence	\$1,500.00	for support of professional development, stream investigation costs, and student led action project supplies to support the Restore and Explore your Schoolshed Program.

City of Hagerstown - Dept of Parks & Engineering	\$170,000	for costs associated with a tree planting project throughout Hagerstown, MD and removing impervious surface and replanting on Memorial Boulevard.
<b>Wicomico</b>		
James M. Bennett High School	\$1,500.00	for support of professional development, stream investigation costs, and student led action project supplies to support the Restore and Explore your Schoolshed Program.
Nanticoke Watershed Alliance	\$225	for signage to complete a trail maintenance project for the Tom Tyler Nature Trail in Riverton, Maryland.
City of Salisbury	\$4,980	for support for the Stormwater Management in Your Backyard project.
Wicomico County	\$49,043	for 100% designs of seven stormwater retrofit projects at four highly visible locations in Wicomico County, MD.
Lower Shore Land Trust	\$915.00	for costs of supplies to conduct a training workshop for the Lower Shore Land Trust's volunteer steward monitoring program to teach participants how to identify and evaluate installed BMPs and areas where BMPs can be implemented when they are monitoring conservation easements.
<b>Worcester</b>		

Lower Shore Land Trust	\$3,530	for support of a native plant demonstration garden and community awareness activities.
<b>West Virginia</b>		
Paw Paw Schools	\$1,650	for 55 students to participate in a trout raise and release project.
West Virginia Rivers Coalition	\$25,000.00	for capacity building support.
Musselman High School	\$3,775	for 500 students in grades 10-12 to participate in a meaningful watershed experience at Mill Creek.
Friends of the Lower Greenbrier River	\$4,805	for costs associated with 250 students to participate in the "Know Your Watersheds" service learning program on the Greenbrier River.
