

Pooled Monitoring Forum: Restoration Research to make Science and Regulatory Connections

Tuesday, June 9, 2020, from 10 AM to 4 PM

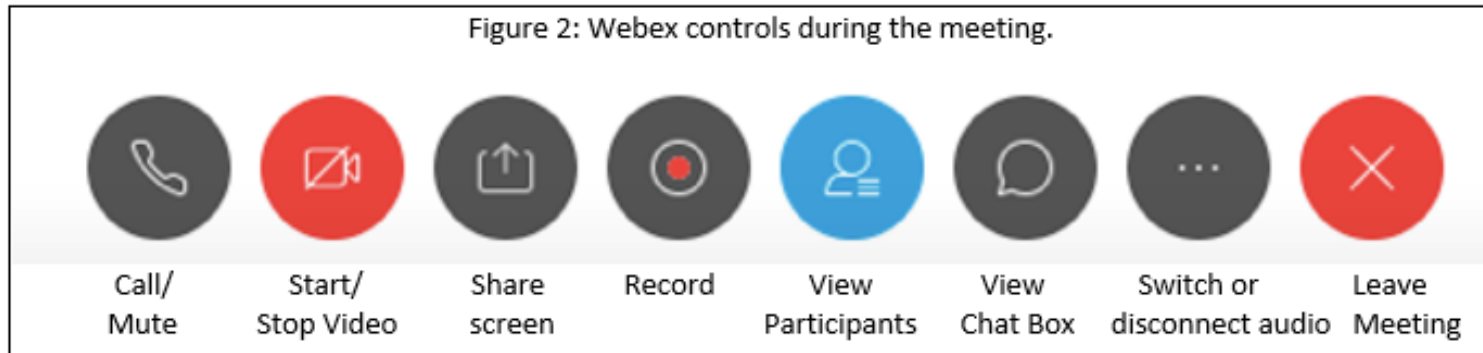

WebEx Link	https://cbtrust.webex.com/cbtrust/j.php?MTID=m9ddee56fb7be6449edbe2b17cc9f4ca2
Audio	<ol style="list-style-type: none">1. <u>Join by computer audio</u> automatically. *Recommended* or2. <u>Join by phone</u>: Use this option if your computer lacks an internal microphone or if you do not have access to a computer.<ol style="list-style-type: none">a. Call 415-655-0001b. Enter meeting access code/meeting number: 160 353 5588 (join by phone only – stop here)c. Enter your attendee ID # (must join WebEx meeting through meeting link <u>first</u> to access your ID #)
Tech Help	<ul style="list-style-type: none">• <u>Nguyen</u>, is our Webex host, and she can help if you <u>raise your hand</u>, <u>chat with host</u>, email nle@cbtrust.org, or call/text 410-635-0266 throughout the meeting• <u>Joe Toolan</u> is tech help in the morning and for the afternoon Zoom practitioner/researcher “break-out” and can be reached at jtoolan@cbtrust.org & by calling 410-974-2941 ext 116• <u>Kathy Somoza</u> is presenting content and helping presenters throughout the meeting & is back-up help with technology; she can be reached at 443-223-2278, ksomoza@cbtrust.org.

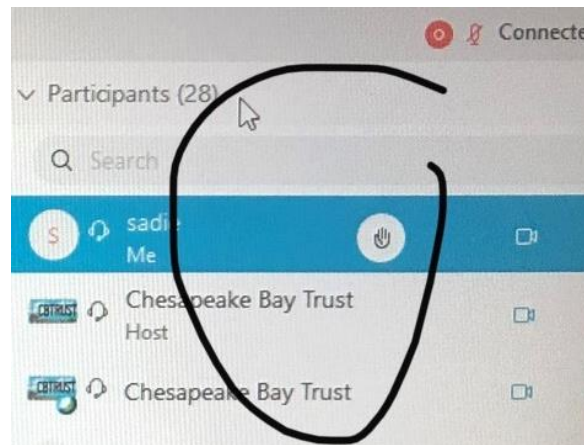

Technology Landing

- How to join and participate in this webex meeting:
https://drive.google.com/file/d/1ekkfYCsE81boQjJS_yxFleXvfoQppLp/view?usp=sharing

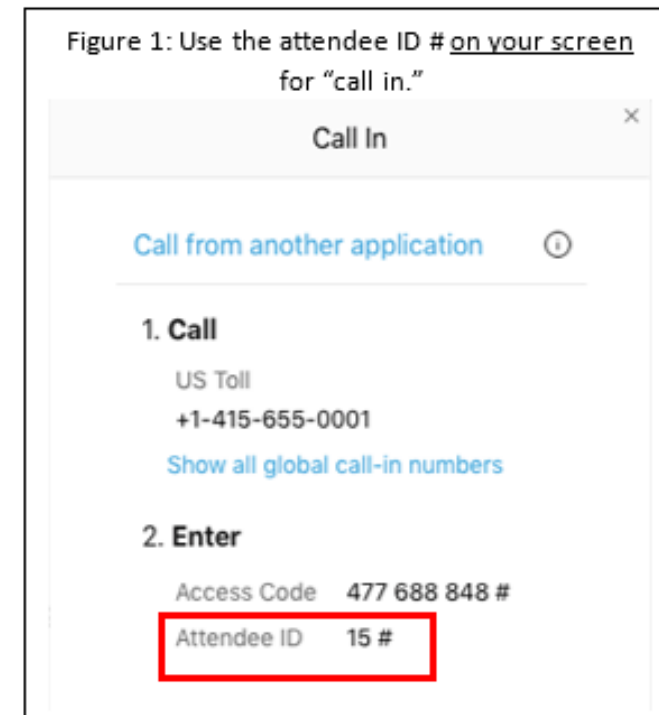

- Webex controls:

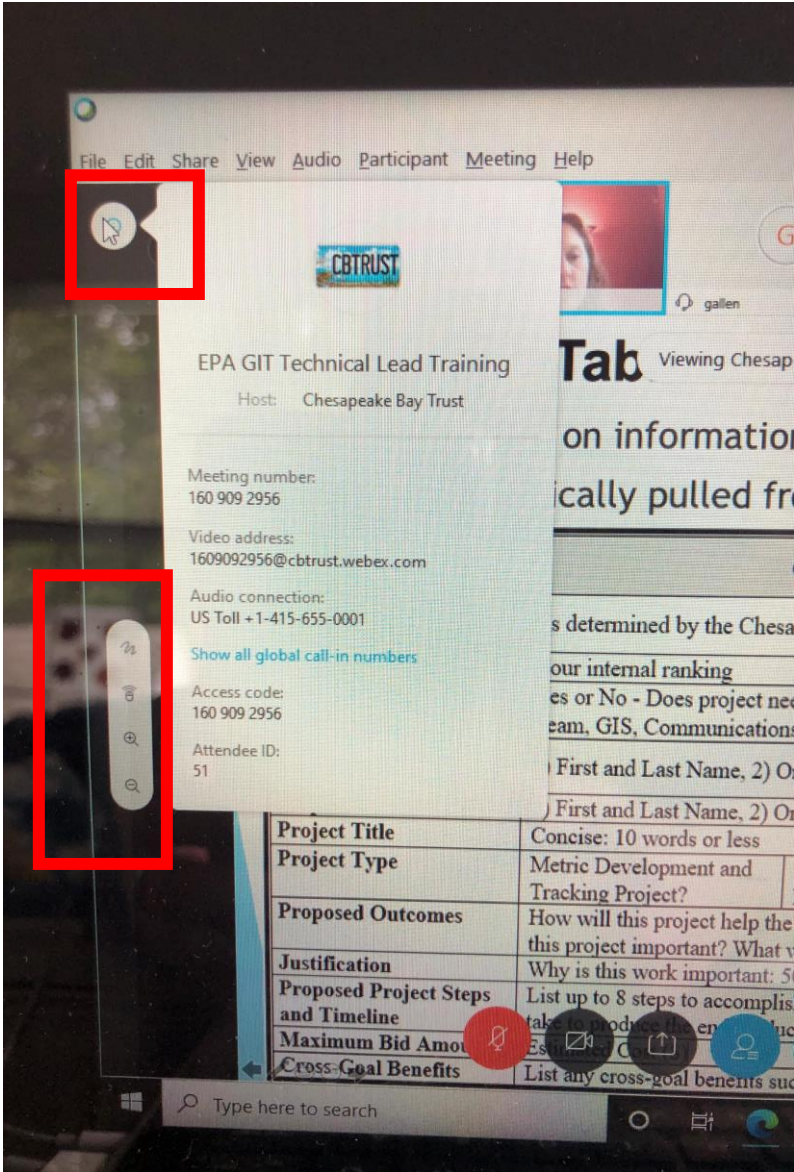

- Raise hand or chat with host (Nguyen) for assistance throughout the meeting

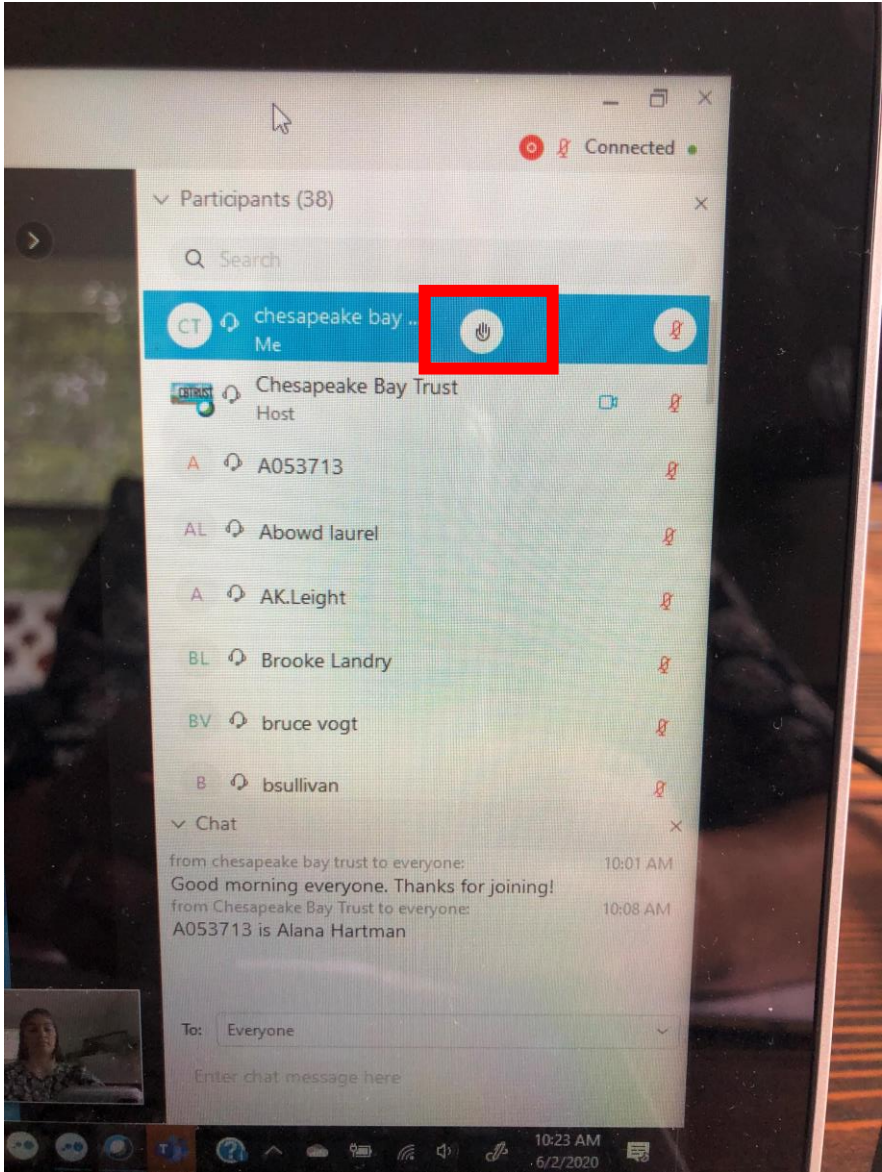

If phoning into the meeting use your attendee ID:

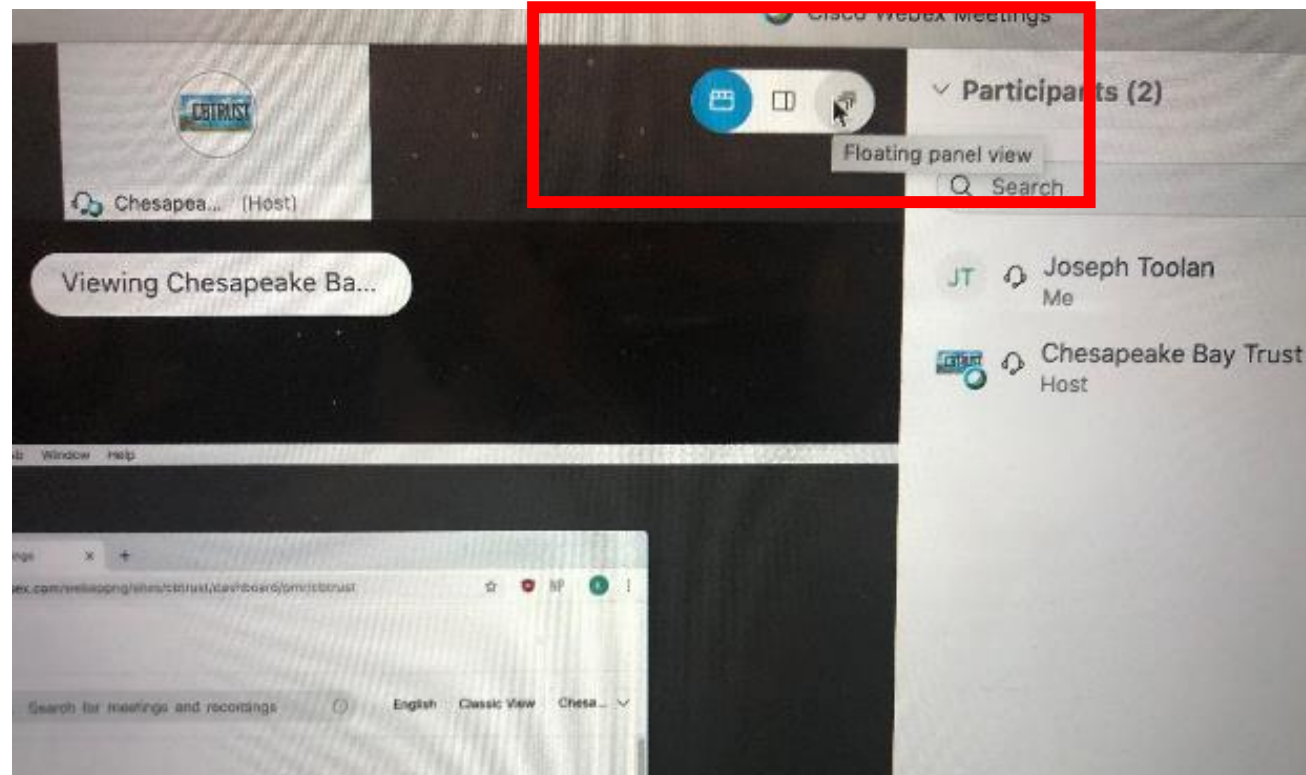

Meeting Information & Zoom In/Out

View Participants & Raise Your Hand

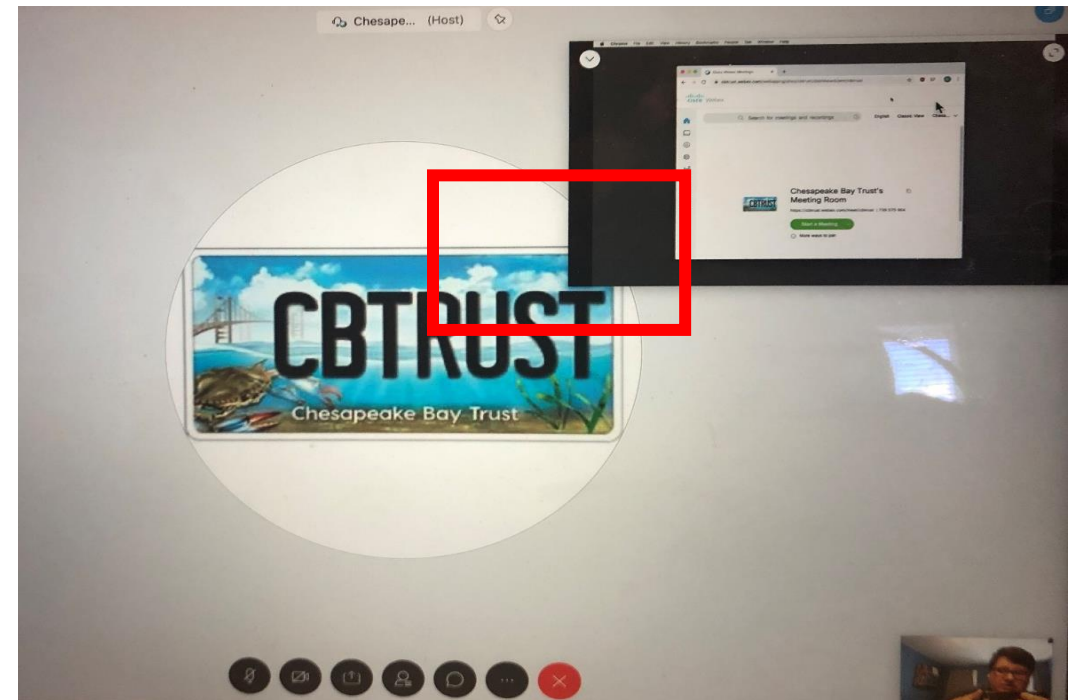

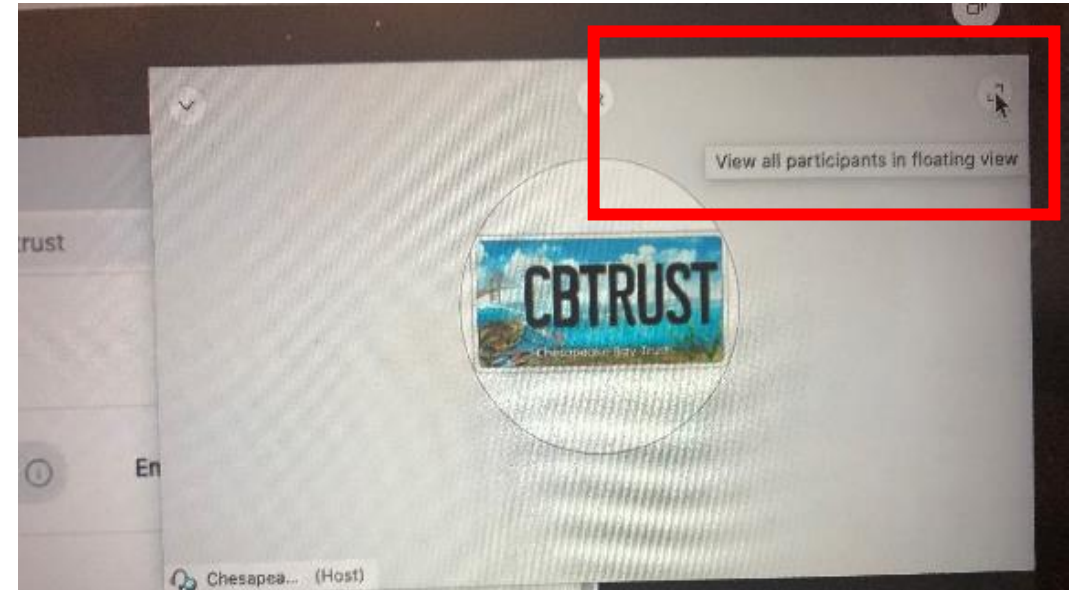

Changing your view

Floating panel view

- In the “Floating panel” located right below your mouse, find the circular button in the upper right corner that says, “view all participants in floating view” and click (top image).
- Your screen will look like the image on the bottom. When there are more people, you will see everyone in a “grid” and be able to move the presentation screen as needed.
 - Need to make the presentation screen bigger? Grab the lower left corner of the box and drag to expand as needed.

Chat

from chesapeake bay trust to everyone: Good morning everyone. Thanks for joining! 10:01 AM

from Chesapeake Bay Trust to everyone: A053713 is Alana Hartman 10:08 AM

To: Everyone

Enter chat message here

Table 1 Contact Information Review

- ▶ The Applicant submits the online application and fills out Table 1, usually a GIT Staffer, on behalf of GIT Lead)
- ▶ The GIT Technical Project Lead
- ▶ The Lead Preparer (other preparers can be listed).

NOTES:

- ▶ Only the Applicant can access and submit the form (we can transfer the form to someone else's account)
- ▶ All three of the above contacts can be the same person
- ▶ All three of the above contacts will receive email notifications from our online system

Meeting Materials

- Meeting materials such as the agenda, presentations, and registration list:
 - are on the google drive at:
<https://drive.google.com/drive/folders/1G6DHiyEBm6qObqMQ29vWKegzvVTRcd58?usp=sharing>
 - will be posted on the Chesapeake Bay Trust's Pooled Monitoring Initiative website after the meeting at:
<https://cbtrust.org/grants/restoration-research/>

Pooled Monitoring Forum Agenda

10 to 10:30 am	Morning Session with <u>opening remarks</u> from Lee Currey , Director of the Water and Science Administration, MDE
10:30 to 11 am	Jon Butcher (Tetra Tech, Inc.), “Climate impacts to restoration practices”
11 to 11:30 am	Roxolana (Lana) Kashuba (Exponent, Inc.), “The effect of BMPs on water quality: Optimizing monitoring to reduce uncertainty and maximize scientific value”
11:30 to 12 pm	Cindy Palinkas (UMCES), “Long-term impacts of living shorelines to SAV habitats in Chesapeake Bay”
12 to 12:30 pm	Lunch Break
12:30 to 1 pm	Tom Schueler , Executive Director of the Chesapeake Stormwater Network “Value of Pooled Monitoring Program & Practitioner stream restoration research needs”
1 to 1:30 pm	Tess Thompson (Virginia Tech), “Linking stream restoration success with watershed and design characteristics”
1:30 to 2 pm	Bob Hilderbrand (UMCES), “Determining ecologically realistic restoration objectives”
2 to 2:30 pm	Jesse Iliff (Arundel Rivers Federation) and Tom Jordan (SERC), “Assessing Watershed-Scale Restoration Effectiveness: Treatment Impacts and Monitoring Requirements”
2:30 to 3 pm	Carol Wong (Center for Watershed Protection, Inc.), “Literature review on techniques to reduce salt loadings to streams: Which techniques of salt application to roadways will result in less loadings to streams?”
3 to 3:30 pm	Break Out Groups to Change the World (of Restoration)
3:30 to 4 pm	Summary of top research questions from regulators and practitioners in Break Out groups

Morning Session

- **Welcome and charge for the day - Jana Davis**, Executive Director of the Chesapeake Bay Trust
- **Lee Currey**, Director of the Water and Science Administration, Maryland Department of the Environment (MDE) – Opening remarks for state priorities and how research can help
- Pooled Monitoring Initiative – Restoration Research program background, current state, and future of the program/science (**Sadie Drescher**, Director of Restoration Programs, Chesapeake Bay Trust)

Lee Currey, Director of the Water and Science Administration, Maryland Department of the Environment (MDE) – Opening remarks for the Pooled Monitoring Initiative's Forum 2020

Pooled Monitoring Initiative - Science answers key restoration questions

- ▶ Desire to support the best, most cost-effective practices at the most optimal sites, but differences of opinion sometimes exist, and questions about the performance and function of some of these practices persist
- ▶ Pool resources to answer restoration questions posed by regulatory community & practitioners
- ▶ Increase power, objectiveness, and ability to know what works
- ▶ Bring science back to those that can use the research/data

Kelsey (UMD student) measuring groundwater for "Tree Trade-Offs in Stream Restoration Projects: Impact on Riparian Groundwater Quality" project (PI is Sujay Kaushal)

Pooled Monitoring Initiative Provides Solutions

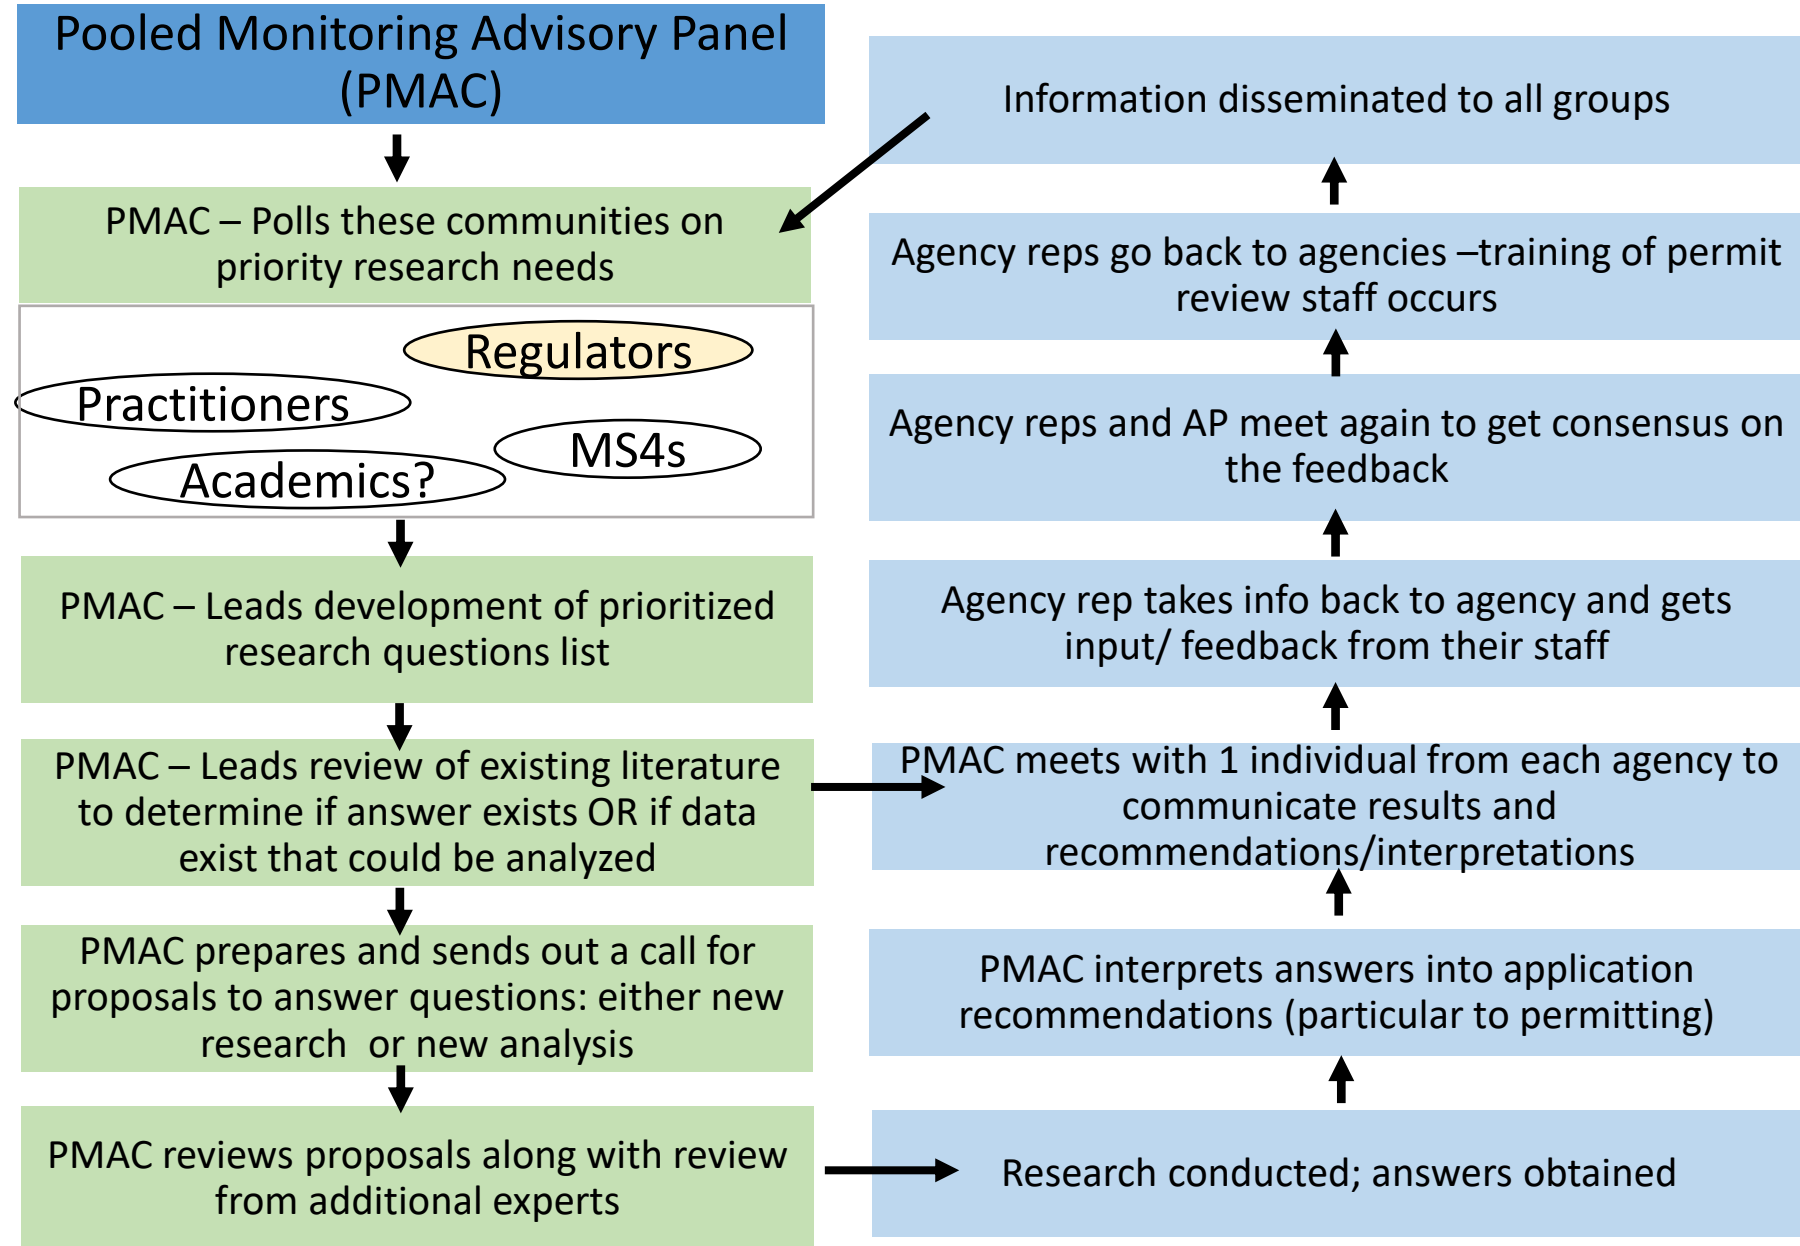

- ▶ Regulators prioritize their concerns with input from practitioners
- ▶ Funders “pool” resources
- ▶ Top restoration questions issued in the Restoration Research Request for Proposals (RFP) in FY15 and led by the Chesapeake Bay Trust
- ▶ Scientific teams research these questions and deliver answers back to the regulators
- ▶ RFP open to any organization – looking for best groups to answer your questions
- ▶ Results used in decisions, policy, practices, etc.

Versar, Inc. scientist visiting Red Hill Branch to measure tree/vegetation “trade-offs” for stream restoration

Process is Inclusive and Transparent

This is how the Pooled Monitoring Initiative works - integrating the key partners, stakeholders, users, scientists, etc. throughout the process to share information and guide the feedback loop

Restoration Research Award Program

- ▶ Supported 27 projects since FY 15 at \$4.7M
- ▶ Guided by the Pooled Monitoring Advisory Committee
- ▶ Uses scientific reviewers across the world to vet applications
- ▶ Runs all applications through a “management review”
- ▶ Projects are managed as contracts
- ▶ Questions are cycled off/on the RFP each year
- ▶ All awards, progress, and program products are online at: <https://cbtrust.org/grants/restoration-research/>

Monitoring stream banks in Carroll County, MD, to see if they recover after restoration

Pooled Monitoring Forum Agenda

10 to 10:30 am	Morning Session with <u>opening remarks</u> from Lee Currey , Director of the Water and Science Administration, MDE
10:30 to 11 am	Jon Butcher (Tetra Tech, Inc.), “Climate impacts to restoration practices”
11 to 11:30 am	Roxolana (Lana) Kashuba (Exponent, Inc.), “The effect of BMPs on water quality: Optimizing monitoring to reduce uncertainty and maximize scientific value”
11:30 to 12 pm	Cindy Palinkas (UMCES), “Long-term impacts of living shorelines to SAV habitats in Chesapeake Bay”
12 to 12:30 pm	Lunch Break
12:30 to 1 pm	Tom Schueler , Executive Director of the Chesapeake Stormwater Network “Value of Pooled Monitoring Program & Practitioner stream restoration research needs”
1 to 1:30 pm	Tess Thompson (Virginia Tech), “Linking stream restoration success with watershed and design characteristics”
1:30 to 2 pm	Bob Hilderbrand (UMCES), “Determining ecologically realistic restoration objectives”
2 to 2:30 pm	Jesse Iliff (Arundel Rivers Federation) and Tom Jordan (SERC), “Assessing Watershed-Scale Restoration Effectiveness: Treatment Impacts and Monitoring Requirements”
2:30 to 3 pm	Carol Wong (Center for Watershed Protection, Inc.), “Literature review on techniques to reduce salt loadings to streams: Which techniques of salt application to roadways will result in less loadings to streams?”
3 to 3:30 pm	Break Out Groups to Change the World (of Restoration)
3:30 to 4 pm	Summary of top research questions from regulators and practitioners in Break Out groups
