

2017-18 Chesapeake Conservation Corps Potential Host Organizations

Potential Host Site	Region	County	Field of Interest	Abstract
Accokeek Foundation	Capitol	Prince George's	Agriculture Community Engagement Environmental Education Forestry Restoration	Seeking a National Food Forest Leader to coordinate the Foundation's Agriculture Conservation Corps and AgLab 2018 programs and to support the Director of Agriculture and farm managers in stewarding and developing the National Food Forest and associated regenerative agriculture demonstrations. Further, they will describe these efforts, and the knowledge gained therein, to visitors, volunteers, interns, and partners. Responsibilities include support of National Food Forest operations and educational outreach, to include the Ecosystem Farm, the National Colonial Farm, and Museum Garden, as well as the surrounding fields and forest and wetlands.
Adkins Arboretum	Eastern Shore - mid	Caroline	Community Engagement Environmental Education Forestry Restoration	Will become a integral member of the staff, participating in all aspects of the organization's operation. Primary activity areas will include: meadow, woodland and wetland conservation and restoration, native plant nursery operation and youth and adult environmental education. Will also assist with grant writing, visitor services, events and programs.
Alice Ferguson Foundation	Capitol	Prince George's	Agriculture Community Engagement Environmental Education Restoration	Will be an integral part of the Alice Ferguson Foundation's Trash Free Potomac Watershed Initiative team. He/she will: <ul style="list-style-type: none"> • Lead an evaluation, revision and pilot of the Trash Free Schools program (60%) • Assist in planning the Annual Potomac Watershed Cleanup (20%) • Aid in expanding the Litter Prevention Campaign (10%) • Support implementation of AFF's other environmental education programming (10%) By conducting environmental education and community engagement projects, the Corps Member will play a vital role in watershed stewardship, while expanding his/her project management skills and preparing for a career in environmental conservation.
Alliance for the Chesapeake Bay, Inc.	Central	Anne Arundel	Agriculture Community Engagement Restoration	<ol style="list-style-type: none"> 1. Work as part of a team to manage the Alliance's business partnerships program, Businesses for the Bay (B4B) 2. Communications about B4B, including Develop marketing and outreach materials for B4B and other Alliance programs, Build content for and update the B4B website and social media sites, and Represent the Alliance at field events, conferences, exhibits, and meetings 3. Planning activities, including Help write grant proposals and reports, Organize meetings and Chesapeake Business Forums, and Help quantify the benefits of sustainable business practices 4. Work directly with business sustainability teams and help them implement goals and projects at their facilities, using the Chesapeake Bay Watershed Agreement as a framework 5. Logistical program support
Amazing Grace Lutheran Church	Central	Baltimore City	Agriculture Community Engagement Environmental Education Energy Forestry Restoration	Will have the opportunity to work in and with a variety of organizations in East Baltimore and across Maryland to design and implement programming in every category, with a great deal of flexibility according to community needs and the Member's interests.

American Chestnut Land Trust, Inc.	Southern	Calvert	Agriculture Community Engagement Forestry Restoration	Engage in a wide variety of work that will sharpen skill sets in the forestry, agriculture, environmental, and biological fields. Major activities will include trail maintenance, invasive species control, farm management, food forest operation, biodiversity surveys, water quality management and MD Master Naturalist class certification. Corps member will also gain leadership experience through various projects working with the trust's volunteer corps and education programs. Throughout the service term there will be opportunity to network and collaborate with experts in the fields of biology, forestry, and environmental research.
Anacostia Watershed Society	Capitol	Prince George's	Community Engagement Environmental Education Restoration	Will conduct class visits, engage students in field experiences on the Anacostia River via canoe and pontoon boat trips, and lead hands-on restoration activities such as wetland plantings, trash clean-ups, invasive plant removals, and schoolyard greening installations. The Corps Member will receive hands-on training and professional certification and engage in both environmental education and restoration activities.
Annapolis Maritime Museum	Central	Anne Arundel	Community Engagement Environmental Education	Primarily assist with educational programming. AMM annually educates 6,000 children about the Annapolis area's maritime heritage and the ecology of the Chesapeake Bay through a suite of hands-on, experiential programs. The Corps Member will take a lead role in: teaching education programs, developing and leading summer camp programs, aquatic animal husbandry, data management, and more! Through programs, exhibits, and community events, the Corps Member will promote inquiry-based learning in order to establish a sense of stewardship and encourage environmental literacy in our students.
Anne Arundel County, Maryland	Central	Anne Arundel	Community Engagement Forestry Restoration	Support monitoring and community outreach projects throughout Anne Arundel County. Their work will be primarily focused on studying the health of streams and wetlands to assess long term health and conditions before and after restoration. The Corps Member will also be encouraged develop new, and build on existing, community outreach and education campaigns to teach County residents about stormwater pollutants and how to improve local water quality. The Corps Member will also assist stream restoration Project Management staff to learn about restoration techniques and the process of moving projects through implementation. Through this work the volunteer will gain intimate knowledge about ecosystem restoration and how to make projects successful. The member will have the opportunity to develop a diverse experience and will end their term with the ability to work well in any number of jobs in the environmental field.
Arlington Echo Outdoor Education Center	Central	Anne Arundel	Environmental Education Restoration	Support the Anne Arundel County Public School's Environmental Literacy and Outdoor Education Office where 24,000 students are engaged in direct environmental programming. Volunteers will work with day, residential or outreach programs located at Arlington Echo Outdoor Education Center or offsite location in Anne Arundel County. • Teaching students and adults in outdoors, supporting programming through the development of materials, activities and curriculum. • Engaging in Bay restoration projects such as oysters, stream monitoring, terrapins, and stormwater restoration. • Experience in environmental education and networks. • Work with early childhood to adults through education and restoration programs.
Audubon Naturalist Society of the Central Atlantic States, Inc.	Capitol	Montgomery	Community Engagement Environmental Education Restoration	Design and lead a wide variety of environmental education programs for pre-K to grade 12 children, including in-school and afterschool programs, field trips, camps, and family programs. If interested, the Corps Member may help with restoration of the Woodend Sanctuary watershed and/or public outreach programs. Additional training opportunities include participation in Stream Monitoring classes, Master Naturalist classes, and Natural History Field Studies, as well as attendance at conferences related to environmental education and watershed stewardship. The Volunteer will gain experience appropriate for a position at a nature center, outdoor education program, aquarium or zoo.

Back Creek Conservancy, Inc.	Central	Anne Arundel	Community Engagement Restoration	Promote the Severn River Association's Stormwater Action Fund to homeowner and condominium associations throughout the Severn River watershed, guiding them to assess their needs and to design and implement projects. The Corps Member will be enrolled at the Watershed Stewards Academy to become a Master Watershed Steward.
Baltimore Chesapeake Bay Outward Bound Program	Central	Baltimore City	Community Engagement Energy Forestry Restoration	Implement projects for Outward Bound (OB) and the Greater Baltimore Wilderness Coalition (GBWC), a regional environmental coalition OB is a member of. Due to this unique partnership the volunteer will involve themselves in a variety of project areas including public outreach, event planning, and habitat restoration/enhancement. The differing project areas allow the volunteer to gain experience in program management, grant writing, wildlife management, and partnership building. Our volunteer will have the opportunity to interact and network regularly with a variety of partners in central Maryland which will prepare them for their next steps after CCC.
Baltimore Community ToolBank	Central	Baltimore City	Community Engagement Environmental Education	Environmental Education: Build upon & enhance existing environmental curriculum for students from kindergarten to college. Lessons will be interactive, engaging and deliver thoughtful & important education to students themed around onsite environmental assets found at the ToolBank. The Corps Member will also perform outreach to educational audiences, participate in developing & delivering curriculum & conduct regular feedback sessions to refine lessons. All lessons will be approached & informed by the fact that the ToolBank's environmental assets exist in a complex, commercial, urban environment. Issues of social justice will be incorporated into teachings from this angle.
Baltimore Green Space	Central	Baltimore City	Community Engagement Forestry	Will connect with Baltimore's green spaces in Baltimore and educate neighbors about preservation. Will engage more neighbors in forest restoration and conservation. Work will include outreach, marketing, event coordination, and volunteer coordination, with time split between our green space preservation pipeline and our forest stewardship network. Must love nature and people, have strong leadership and organization skills, and be comfortable in Baltimore and the forest.
Blue Water Baltimore	Central	Baltimore	Community Engagement Forestry Restoration	Help expand the capacity of our community forestry and volunteer programs by working to: <ul style="list-style-type: none"> • Support existing staff at tree plantings, tree maintenance events, invasive vine pulls, trash clean-ups, and other community stewardship activities • Develop a framework for invasive plant management at planting sites • Identify opportunities for community restoration projects, especially invasive vine pulls and trash clean-ups (but also tree plantings!) • Increase citizen action and engagement via supporting and training volunteers for community-led projects • Assist with Project Clean Stream coordination and volunteer training
C&O Canal Trust	Western	Washington	Community Engagement Environmental Education Restoration	Work with the C&O Canal Trust and National Park Service to create and implement impactful volunteer stewardship projects connecting local communities to their neighborhood National Park, and to greater environmental themes at one of the most visited National Parks in the country.
Chesapeake Bay Environmental Center	Eastern Shore - mid	Queen Anne's	Community Engagement Environmental Education Restoration	With our 510 acre peninsula of protected habitat and ample water access, we have a prime location to work towards our mission of "promoting stewardship and sustainability through environmental education and habitat restoration." Our Corps Member will gain experience in three sectors of CBEC's operations: Environmental Education, Restoration, and Community Engagement. Join us and help inspire the next generation of Chesapeake Bay stewards through environmental education, promote stewardship by testing and implementing innovative restoration techniques, and support a wonderful community of visitors and volunteers.

Chesapeake Bay Foundation, Inc.	Central	Anne Arundel	Agriculture Community Engagement Environmental Education Forestry Restoration	<p>Work in 4 main areas:</p> <p>1) Habitat Restoration - Assist CBF's MD Restoration Scientist on tree planting events throughout the year as well as one living shoreline workshop.</p> <p>2) Sustainable Agriculture -- Assist Clagett Farm staff with their grass-fed beef cattle operation, Community Supported Agriculture program, and native tree nursery, and work with other CBF ag. programs (Buy Fresh Buy Local Chesapeake, MD Grazers Network, etc.).</p> <p>3) Oyster Restoration -- Assist Oyster Restoration Center staff with events and help with the annual production of millions of spat-on-shell oysters.</p> <p>4) Environmental Education -- work with CBF educators in the field on day and multi-day experiences with students of various age ranges.</p>
Chesapeake Bay Maritime Museum	Eastern Shore - mid	Talbot	Environmental Education	<p>1. Develop a kayak trail of nearby waterways accessible from the CBMM campus including San Domingo Creek and Long Point Island, and supporting materials for guest paddlers.</p> <p>2. Create and pilot a boat-based program with the Rising Tide youth development program to compare the built environment of St. Michaels harbor with the natural environment of the Miles River.</p> <p>3. Assess CBMM's environmental education resources and present a proposal for the expansion, creation, or revision of relevant school-age programming.</p> <p>4. Assist with delivery of school programs during fall and spring visitation seasons.</p>
Chesapeake Center for Youth Development	Central	Baltimore City	Community Engagement Environmental Education Restoration	<p>Provide programmatic and ecological improvements to Garrett Park with guidance from the published American Planning Associations Brooklyn/Baybrook Community Action Plan. This would include furthering the partnerships of anchor institutions that sit within one block of the Park: CCYD, Marree Farring Elementary Middle School, Enoch Pratt Library, and the Boys and Girls Club.</p> <p>https://www.planning.org/media/document/9113630/</p> <p>US Fish and Wildlife's Greater Baltimore Wilderness Coalition Senior Adviser would work with CCYD to provide guidance for the Corps member write grants and deliver programming to help develop Garrett Park projects. USFWS will focus on pollinator habitat and landscape improvements to enhance climate resiliency as well as expanding the amount of residents engaged in connecting to nature.</p>
City of Cumberland	Western	Allegany	Community Engagement Forestry	<p>Position offers profession experience with both a city government and a leading non-profit organization in beautiful western Maryland. Position offers a mix of field and office work, routine activities and special projects. Responsibilities focused in four areas:</p> <p>1. Urban Forestry: Planning, planting and care of street trees</p> <p>2. Watershed Forestry: Land management, forest inventory, wildlife</p> <p>3. Local Government Outreach: Field trips to engage local leaders in forest conservation</p> <p>4. Youth Engagement: involving youth in meaningful, high-profile projects for forests and trees</p>
City of Frederick	Capitol	Frederick	Community Engagement Forestry Restoration	<p>Assist the City of Frederick's Sustainability Manager by leading a variety of education and outreach activities, including the Tree Frederick program, the Sustainability Annual Report development, social media organization, and tree planting efforts. We'd love someone with experience in the Adobe Suite, particularly InDesign, but it's not necessary.</p>

City of Greenbelt	Capitol	Prince George's	Community Engagement Environmental Education Energy Forestry Restoration	<p>Perform environmental education and outreach by leading service-learning volunteer events and workshops. The CCC member will help meet the Department's goals by:</p> <ol style="list-style-type: none"> 1. Mobilizing volunteers to improve the Chesapeake Bay Watershed by reducing environmental impacts, 2. Helping plan, implement, monitor, report, and maintain low impact development projects, 3. Encouraging the municipality / community to reduce energy usage and carbon emissions, 4. Working in partnership with non-profits, schools, and community members on organic community gardening and food forestry projects. <p>The ideal candidate will possess great attention to detail and excellent listening, strong written and verbal communication skills.</p>
Cromwell Valley Park	Central	Baltimore	Community Engagement Environmental Education	<p>Perform a variety of duties including helping to lead educational programs, working to develop new programs and educational materials, greeting visitors, maintaining park trails, caring for the live animal collection, and helping to develop new exhibits. Those interested should have a passion for the outdoors, excellent communication skills, and a willingness to learn.</p>
Croydon Creek Nature Center (City of Rockville)	Capitol	Montgomery	Community Engagement Environmental Education	<ul style="list-style-type: none"> • Collaborate with center staff to contribute to the interpretive plan of the nature center through the creation of innovative programs, events and exhibits. • Facilitate environmental education outreach (both on and off-site) for schools, summer camps, scouts and the general public. • Become familiar with "The Rockville Way", the City's approach to high quality customer service • Participate in the general operations of the nature center including animal care, training in the program registration software and social media content as well as daily procedures
Echo Hill Outdoor School	Eastern Shore - upper	Kent	Environmental Education	<ol style="list-style-type: none"> 1) Participate in staff development training alongside Echo Hill Outdoor School staff/naturalists. 2) Develop and implement hands-on lessons and projects focused on the Chesapeake Bay, wetland and forest ecology, sensory exploration, resource management, and human interaction with the environment. 3) Facilitate individual group development exercises on the high and low ropes courses to foster communication, leadership, and problem solving skills. 4) Participate in residential life with student groups, modeling positive behavior and mentoring students. 5) Maintain and improve Echo Hill's campus and resources, including the organic garden, dormitories, and reuse-renew-recycle center, to provide a positive teaching experience.
ECO City Farms	Capitol	Prince George's	Agriculture Community Engagement Environmental Education Energy	<p>Our location along the Anacostia River presents opportunities for us to demonstrate how sustainable agricultural can advance environmental and watershed restoration in urban settings. The Corps Member will assist with a number of ECO's projects in order to understand what it takes to truly "green" our economy and communities. The Corps Member will learn about all aspects of our urban farming operation, from seed to harvest to compost, and be engaged in our community educational programs.</p>

Environmental Concern Inc.	Eastern Shore - mid	Talbot	Agriculture Environmental Education Restoration	<p>Wetland Education Corps Member:</p> <ol style="list-style-type: none"> 1.) Lead wetland-related education programs (e.g. teacher professional development, schoolyard conservation, and student programs) while offering support to area schools in the Maryland Green School process. 2.) Assist with the planning, implementation, maintenance and monitoring of schoolyard habitat (SYH) projects. 3.) Increase outreach efforts of our MAMI program by; designing and developing events and workshops. <p>Restoration/Nursery Corps Member:</p> <ol style="list-style-type: none"> 1.) Assist with native plant seed collection, wetland plant propagation and maintenance. 2.) Assist with wetland, living shorelines and bioretention plantings. 3.) Plant milkweed species in schoolyards, community properties, and local restoration projects.
Fair Hill Environmental Foundation, Inc.	Eastern Shore - upper	Cecil	Environmental Education	<p>Gain diverse experiences working at a small environmental education based non-profit. Upon completion, each successful CCC Member will have personally delivered hands-on environmental programming to approximately 2500 children and adults. In addition to teaching skills, Corps members will gain experience in curriculum writing, grant writing, event planning, marketing, fundraising, and public outreach. Corp Members will greatly expand their knowledge of natural history and attend professional development sessions, including the annual MAEOE conference.</p>
Friends of Jefferson Patterson Park and Museum	Southern	Calvert	Community Engagement Environmental Education	<p>Work with JPPM staff to:</p> <ol style="list-style-type: none"> 1. Develop, design, and conduct public programs that focus on JPPM's environmental history and cultural landscape. 2. Support existing 6th grade environmental education programming through partnership with Chesxax. 3. Work directly with the public and summer camps facilitating hands-on educational programming at JPPM. Assisting with the development of new program activities. 4. Serve as interpretative staff at the Woodland Indian Village, Visitor Center, and Farm Exhibit Building. 5. Participate in special events sponsored by JPPM, including Patuxent River Wade-In, Children's Day on the Farm, etc.
Girl Scouts of Central Maryland, Inc.	Central	Anne Arundel	Environmental Education Restoration	<p>This is a unique opportunity to: (1)impact the Chesapeake Bay, (2)provide oversight to a project that will transform a historic Girl Scout campground into the camp of the future, (3)liaison with community stakeholders, (4)engage school children in experiential learning and (5) assist with bond bill grant management while exploring new funding opportunities.</p> <p>Duties: Hands-on watershed/habitat restoration, planting bay grasses; project management; teaching; managing the partnership w/South River Federation and GSCM's in-school programs staff, convening field trips for local schools; making community presentations to generate interest and input, conducting prospect research for new funding opportunities.</p> <p>An interactive environmental project is incorporated into a capital project by a world class organization creating outdoor classrooms/nature trails and upgrading the historic Lamb's Lodge -- providing a once-in-a-lifetime opportunity.</p>

Hood College: Center for Coastal and Watershed Studies	Capitol	Frederick	Community Engagement Environmental Education Restoration	<p>CCWS is in search of a laboratory assistant / researcher. You will be involved in:</p> <ol style="list-style-type: none"> 1. Water quality monitoring and carryout both field data collection and laboratory analysis 2. Stream health analysis and education outreach / restoration projects for high school students. 3. You will travel for 3 weeks during the fall semester as a teaching assistant on the coastal studies program, this is a great opportunity to travel to the Chesapeake Bay, learning about coastal environments and carrying out field research. 4. Be part of the planning committee for events and workshops
Irvine Nature Center	Central	Baltimore	Community Engagement Environmental Education Forestry Restoration	<ol style="list-style-type: none"> 1. Lead and assist with environmental education programs such as school field trips, classroom outreach, after-school and scout programs, grant-funded campouts, day-off school and summer camps. 2. Assist with event coordination and volunteer supervision for events such as Native Plant Seminar, Pumpkins on the Green, Treehugger 5k, PumpkinFest and Project Clean Stream. 3. Assist with live animal care as well as maintenance of exhibits and the aviary. 4. Assist with the oversight of corporate volunteer groups. 5. Assist with teacher professional development programs led by INC staff and participate in off-site professional development opportunities hosted by community partners.
Izaak Walton League of America (The)	Capitol	Montgomery	Community Engagement Environmental Education	<p>Take science to the great outdoors with the Izaak Walton League of America's Creek Freaks and Save Our Streams Programs! A Corps member at the League will have the opportunity to educate youth utilizing our Creek Freaks Curriculum in the field and the classroom, as well as train adult volunteers and educators about the ins and outs of water quality monitoring in Maryland using the Save Our Streams monitoring method. They will also learn the keys to data management, volunteer coordination, and the communication skills necessary to spread the word about clean water in person and online.</p>
Jug Bay Wetlands Sanctuary, Anne Arundel County Department of Recreation and Parks	Central	Anne Arundel	Agriculture Community Engagement Environmental Education Forestry Restoration	<p>Jug Bay Wetlands Sanctuary offers hands-on opportunities to Corps Members to join our enthusiastic staff and wonderful team of volunteers in planning, coordinating, and implementing projects to further our education, citizen science, and stewardship goals. Be part of creating rain and sensory gardens, furthering our community garden program, developing and/or testing protocols and implementing best management practices to monitor and control invasive species and the health of our forests, developing interactive conservation programming for middle-high school students of underserved communities, and mentoring high school students in "open science inquiry". Join us to serve our community, educate, and protect our environment!</p>
Latin American Youth Center	Capitol	Montgomery	Community Engagement Forestry Restoration	<p>Activities will include project development and field experience in the areas of Environmental Restoration, Energy Conservation and Forestry. Volunteer will have the following responsibilities as part of LAYC/MMYC Conservation Corps program which incorporates job training and GED preparation through a conservation lens for 20-30 disconnected youth: 1. Workshop Facilitation (co-facilitating workshops on environmental education, safety, project planning, and tools training) 2. Social Media Updates (post articles, photos, and videos focusing on conservation topics, conduct outreach, and highlighting work of the MCCC), Career Pathway Development (develop pathways for green sector careers and job placement for youth), and Field Experience (attend one field day per week).</p>

Marshy Point Nature Center	Central	Baltimore	Community Engagement Environmental Education Restoration	Marshy Point Nature Center is part of the Baltimore County Dept of Recreation and Parks Department in cooperation with the Marshy Point Council. Being located on the Chesapeake bay the environmental education is a key part of the developing the curriculum. Constructing new and updating displays and habitats in and around the Nature Center are all part of the corps Member Position, along with the Facilities and management of the Center.
Maryland Association for Environmental and Outdoor Education (MAEOE)	Central	Howard	Community Engagement Environmental Education Energy Forestry	Support our climate change initiatives as a Climate Change Educator. Corp member duties will include: 1. Promote, develop, and deliver climate change professional development workshops 2. Present climate change workshops at Maryland schools, conferences, and meetings 3. Promote green careers/jobs with natural resource organizations such as United States Department of the Interior Bureau of Land Management and Maryland Forestry Board 4. Support MAEOE events such as the annual MAEOE Conference and Green Schools Youth Summit 5. Support the Maryland Green School program
Maryland Coastal Bays Program	Eastern Shore - lower	Worcester	Community Engagement Environmental Education Forestry Restoration	The Maryland Coastal Bays Program exists to protect and conserve the waters and surrounding watershed of Maryland's coastal bays, located behind Ocean City and Assateague Island. We do this through restoration, outreach, and education. MCBP offers many opportunities to gain experience in the environmental field including implementing a living shoreline, anadromous fish sampling, and monitoring Atlantic white cedar forests. Environmental education and outreach is key to what we do; the corps member will also have the opportunity to participate in and lead educational programs, field trips, and activities at environmental education sites such as Assateague Island.
Maryland Department of Natural Resources (DNR)	Western	Allegany	Community Engagement Environmental Education	The Maryland Dept of Natural Resources Resource Assessment Service (RAS) in partnership with the Maryland Park Service Rocky Gap State Park (RGSP) are jointly seeking one Corps Member to support their collective mission to educate the public and minimize the spread of Aquatic Invasive Species (AIS) within the State and Chesapeake Bay region. The position would be 75% field work and 25% education. The individual will be based out of RGSP with field work consisting of water quality and plant monitoring as well as GIS mapping. Educational efforts will be translatable to the Chesapeake Bay and region.
Maryland Department of Natural Resources (DNR)	Central	Anne Arundel	Restoration	Will serve two roles: as a crew member with Dept's Maryland Biological Stream Survey and as a collaborator with multiple Department programs' in freshwater mussel restoration. The statewide stream assessment project is conducted by the Dept's Monitoring and Non-tidal Assessment Division. The goal is to provide the best possible information for the protection and restoration of Maryland's stream ecological resources. The mussel restoration project is conducted along with the Dept's Fishing and Boating Service and Wildlife and Heritage Service. The goal is to increase freshwater mussel production and culture capacity in state hatcheries to support restoration projects.
Maryland Department of Natural Resources (DNR) - Living Resource Assessment	Central	Anne Arundel	Community Engagement Restoration	1. Assisting with SAV restoration projects, including site selection, "in the water" restoration and post-restoration monitoring 2. Assessing the impacts of shoreline hardening and living shorelines on SAV habitat 3. Engaging watershed and citizen groups in SAV identification and reporting 5. Managing and analyzing SAV data and preparing materials for press releases, reports and social media for resource managers, funding partners and the general public 5. Participating in the Chesapeake Bay Program's SAV Workgroup and assisting with meeting the Workgroup's goals and missions.

Maryland Department of the Environment	Central	Baltimore City	Restoration	Stormwater Sediment and Dam Safety (SSDS) GIS Corps Member: data collection, data entering and research skills. The individual must be comfortable and willing to work outdoors, be detail orientated, organized, self-motivated and willing to learn. The primary duties include but not limited to: Field verification and data collection on the type and location of stormwater best management practices (BMP) as reported to MDE by municipal separate storm sewer system (MS4) jurisdictions; Taking photos of the BMPs; Entering data into a database; and Other duties as assigned.
Midshore Riverkeeper Conservancy, Inc.	Eastern Shore - mid	Talbot	Agriculture Community Engagement Environmental Education Restoration	MRC's mission is to restore and protect the waterways that comprise the watersheds of the Choptank, Miles, and Wye Rivers. To accomplish this, we strive to increase environmental awareness through education, outreach, and restoration; emphasizing the essential role our rivers, creeks, and streams play in the community, the issues that threaten their health and vitality, and the solutions that must be implemented to protect and preserve our local waterways. The Conservation Corps volunteer will directly enhance our mission by assisting in all of these aspects, specifically by assisting in environmental education, water quality monitoring, oyster restoration, agricultural restoration, and events and outreach programs.
MNCPPC - Meadowside Nature Center	Capitol	Montgomery	Community Engagement Environmental Education Forestry Restoration	Meadowside Nature Center educates and inspires the community to experience, explore, and protect local park lands. In addition to the following opportunities, the Corps Member can personalize the position by using the many resources and training available throughout Montgomery Parks. Corps Member can expect to: 1. Work with experienced naturalists to develop new and exciting avenues to increase environmental literacy within the community. 2. Conduct nature-based instructional and interpretive activities, programs and assist with events. 3. Help with the daily operations including, animal care (birds of prey, reptiles, amphibians, insects). 4. Support special initiatives within other Montgomery Parks facilities and divisions.
MNCPPC- Brookside Nature Center	Capitol	Montgomery	Environmental Education Forestry	Montgomery County Parks Nature Centers seek to engage people with nature and help them integrate it into their everyday life. Duties include: 1. Working with staff naturalists to develop new and exciting avenues to increase participation of the community focusing on Urban Forest Ecology and developing a Family Nature Club as a priority. 2. Assist staff with established, nature-based instructional and interpretive activities, programs and special events to learn best interpretive practices. 3. Help with the daily operations of the Center including opening/closing of the facility; prepping program activities and materials; providing customer service to visitors.
Montgomery County Public Schools	Capitol	Montgomery	Agriculture Environmental Education	OEEP is searching for an energetic, enthusiastic person to join our team of educators! If you are interested in learning more about providing great outdoor environmental education to students and adults, please apply! This person will: 1. Learn and implement instructional techniques using an inquiry approach 2. Receive basic certification for teaching communication skills through the use of the confidence course 3. Collaborate on providing meaningful watershed educational experiences, with emphasis on student action 4. Use technology to create materials to supplement instruction for learners 5. Acquire several strategies for quickly building good working relationships with adults and children

Montgomery County, MD	Capitol	Montgomery	Community Engagement Forestry Restoration	<ol style="list-style-type: none"> 1. Assist stream monitoring crews in collecting biological, physiochemical & habitat data needed to assess stream health. To include fish surveys, benthic macroinvertebrate sampling & habitat assessments. 2. Assist in the analysis & compilation of collected data. 3. Assist with outreach events.
Nanticoke Watershed Alliance	Eastern Shore - lower	Worcester	Agriculture Community Engagement Environmental Education Forestry Restoration	<p>(1) Nanticoke Creekwatchers Water Quality Monitoring Program: train volunteers to use equipment and acquire water samples, sample in the field with volunteers, and assist with sample delivery, lab analysis, and data entry. (2) Environmental Education Program: present in-classroom lessons on watersheds, non-point source pollution, and best management practices (BMPs) and assist with off-campus field trips, teacher workshops, and on-the-ground student service-learning action projects. (3) Outreach: perform outreach, help coordinate Wade In, and assist with Homeowner series to promote stewardship. (4) Restoration Projects: plan and conduct watershed restoration projects, including stream restoration, rain gardens, living shorelines, and other BMPs.</p>
National Aquarium	Central	Baltimore City	Community Engagement Environmental Education Restoration	<p>The National Aquarium's Corps responsibilities and activities include (but are not limited to): (1) Hands-on habitat restoration. Work with Aquarium staff and partners to organize and implement volunteer based debris cleanups, tidal wetland creation, sand dune restoration, and forest restoration. Room and board is provided for restoration activities that require travel; (2) Implement education programs in the classroom and in the field. Assist Aquarium staff in the Wetland Nursery Program and community programing; (3) Participate in outreach events. Assist Aquarium staff during community outreach events to educate the public on current environmental concerns, what the Aquarium does, and what they can do at home to promote a healthier Bay.</p>
National Wildlife Federation	Central	Anne Arundel	Community Engagement Environmental Education	<ol style="list-style-type: none"> 1. Support NWF Mid-Atlantic Education and Conservation staff with implementation of our two-year schoolyard habitat project in southwest Baltimore, including coordinating and participating in community planting events 2. Assist with organizing community-oriented educational workshops (for K-12 school staff and neighborhood residents) to promote environmental stewardship, support restoration projects, and increase urban wildlife habitat 3. Lead the development of a pilot volunteer corps to support our work in Baltimore 4. Engage with current and interested NWF Eco-Schools to increase program participation and impact 5. Write blogs and create other marketing materials to promote our work
Nature Conservancy, The	Capitol	Montgomery	Agriculture Community Engagement Forestry Restoration	<p>Will have a wide range of responsibilities, both in the office and field, from western MD to the Eastern Shore. Office work will range from researching forest resilience and connectivity in the Central Appalachians to mapping and analyzing data for coastal resiliency on the Eastern Shore. In the field, the Volunteer will help with native plantings, invasive species control, trail maintenance, forest management, and many other varied stewardship activities. Spring and fall will include controlled burning, fire line preparation, and post-burn monitoring.</p>
Neighborhood Design Center	Central	Baltimore City	Community Engagement Environmental Education Energy Forestry Restoration	<ol style="list-style-type: none"> 1) Through Community Design Works, the Neighborhood Design Center (NDC) offers pro bono conceptual design assistance to community-initiated projects in Baltimore City. Work alongside NDC staff, community stakeholders, and design volunteers in participatory processes to create design plans for more sustainable urban landscapes. 2) Build partnerships between community clients and outside organizations so that the community client launches from an NDC design process into implementation of their plan. 3) Research and produce two new NDC-branded "Action Guides" providing easy-to-understand instruction on DIY sustainable implementation topics.

Oregon Ridge Nature Center Council	Central	Baltimore	Community Engagement Environmental Education Restoration	Will work directly with Oregon Ridge staff to foster the mission of the nature center. The CCC member will have exposure to all aspects of the nature center and park's operation but will focus on educating park visitors and the surrounding community about the impacts (positive & negative), humans have on our environment; lead environmental educational programming to schools, community groups, local corporations and the general public; enhancing the water quality of our onsite streams through habitat restoration projects and native plantings, and implementing erosion control measures throughout the park.
Parks & People Foundation	Central	Baltimore City	Agriculture Environmental Education Restoration	Will serve at the Assistant Team Leader of Branches, Parks & People Foundation's year-round environmental education and leadership development internship program for Baltimore City youth. The Branches Assistant Team Leader will help facilitate program delivery to 35 high school-aged interns. The Corps Volunteer will help to deliver engaging lessons and assist with project management of greening activities such as tree planting and maintenance, and community gardening. The Corps Volunteer will enhance the impact of the Branches program for the participants, enabling participants to develop and realize long term education and career goals.
Patapsco Heritage Greenway, Inc	Central	Baltimore	Community Engagement Forestry Restoration	<ol style="list-style-type: none"> 1. Assist our dynamic stream team volunteers in environmental stewardship activities 2. Lead and assist with environmental education, workshops and natural history days events 3. Learn to use GIS to map and document sites 4. Plan and organize stewardship events 5. Participate with our environmental partners in joint programs and projects
Patterson Park Audubon Center	Central	Baltimore City	Community Engagement Environmental Education Energy Restoration	<p>Patterson Park Audubon Center connects a multicultural community with nature in an urban setting, empowering neighbors through education and action projects to enhance bird habitat in Baltimore. We envision a Corps Member who will lead and learn as a member of Audubon's international conservation efforts.</p> <ol style="list-style-type: none"> 1. Habitat restoration to benefit birds, butterflies, people, and the waterways they rely on. 2. Nature-based education, using local parks as our outdoor "classrooms." 3. After-school programs about Baltimore birds, Chesapeake Bay, and climate communication. 4. Environmental education and stewardship projects that engage diverse participants. Some programs take place entirely in Spanish.
Patuxent Tidewater Land Trust	Southern	St. Mary's	Agriculture Community Engagement	Primary: Assume the task of Monitoring Coordinator. Assist PTLT Executive Board members in tasks related to: the acquisition, and annual monitoring, of conservation easement properties. Assisting Board and Exec. Dir. on compiling documentation to apply for accreditation by the Land Trust Alliance. This involves much computer work, records, legal documentation, and meetings with stakeholders. Must be detail oriented and good at independent organizing.
Patuxent Wildlife Research Center	Capitol	Prince George's	Agriculture Energy Forestry Restoration	This is a hands on position aimed at providing experience in a wide array of tasks centered around the work of USGS on Poplar Island, a world class restoration site in the Chesapeake Bay. A critical component of this restoration is monitoring species trends and using this information for adaptive management. Therefore, this position will be primarily focused on population monitoring for a variety of avian species on Poplar Island, as well as method development (use of unmanned aircraft systems, thermal imaging, etc.) and sampling of waterfowl for diseases at this site. In addition, this position will provide opportunities for interagency collaboration and tasks such as vegetation and wildlife management.

Phillips Wharf Environmental Center	Eastern Shore - mid	Talbot	Community Engagement Environmental Education Restoration	Phillips Wharf Environmental Center, a 501(c)3 non-profit on Tilghman Island, aims to inform, involve, and inspire Chesapeake Bay residents to become stewards of their watershed. Phillips Wharf lies at the intersection of tradition and innovation in the seafood industry, and we seek a CCC member to join our team as we continue to work towards sustainable solutions to ecological problems in the Chesapeake region. We can provide our CCC member with a diverse experience that covers the whole of our mission, including environmental education and outreach, oyster aquaculture, animal husbandry, citizen-based oyster restoration, community garden development, and non-profit management.
Potomac Conservancy	Capitol	Montgomery	Community Engagement Restoration	Potomac Conservancy seeks an enterprising clean water enthusiast to join Team Potomac's Community Conservation program. The Corps member will be responsible for planning, implementing and securing funding for essential stewardship, recreation, and education initiatives that connect people to the Nation's River and inspire generationally and ethnically diverse communities to join the fight for clean water. By managing current partnerships and developing new strategic relationships, the Corps member will play a role in a wide array of strategies that meaningfully engage the public in important conservation work in their own backyards.
Prince George's County Public Schools - William S. Schmidt Outdoor Education Center	Capitol	Prince George's	Environmental Education	The William Schmidt Outdoor Education Center is a 450 acre outdoor center that offers environmental education programs to elementary students in Prince George's County Public Schools. The intern's primary foci will be teaching visiting students, developing and implementing environmental lessons and making physical adaptations to the property in order to expand the offering of environmental education programs at the Schmidt Center. The intern will have the opportunity to participate in a variety of other programs aligned with his/her interests including conferences and workshops, restoration and farming projects, off-site environmental programs and much more. No day is the same at the Schmidt Center!
Smithsonian Environmental Research Center	Central	Anne Arundel	Community Engagement Environmental Education	<ol style="list-style-type: none"> 1. Develop and facilitate the Smithsonian Environmental Research Center (SERC) Science in Action program. This will be a new program, using SERC resources and expertise to support high school students in Anne Arundel County Public Schools in developing independent research projects for project-based learning courses (e.g. capstone projects, internships, science fair projects, community challenge projects). 2. Play an active role in the SERC Public Engagement team by participating in the planning and implementation of education, citizen science, and science communication activities. 3. Work with SERC staff to develop other programming to engage high school students.
South River Federation	Central	Anne Arundel	Community Engagement Restoration	The South River Federation is offering a one-year experience that is half in the field (planting trees, restoring oysters, cleaning up streams) and half in the office, analyzing data and communicating our work to our membership. This is the perfect job for the person who wants to explore numerous facets of the environmental world. During the year, the Corps member will be involved in restoration projects, water quality monitoring, field research, communication, outreach, and fundraising. Primarily, this experience is about community engagement, involving volunteers with hands-on restoration projects and informing the public about the River's health.

Southwest Partnership, Inc.	Central	Baltimore City	Community Engagement	Will be responsible for organizing community members in the Southwest Partnership neighborhoods in Southwest Baltimore City to reduce their environmental impact. The Corps Member will have three main projects: developing and coordinating an anti-littering campaign, supporting and organizing neighborhood greening projects, and working with community members to identify and develop resources to support community greening, restoration, and environmental education projects. The Corps Member will work directly with community members to increase capacity and involvement in projects that will have a positive impact on the environmental health of the neighborhoods.
St. Mary's County Public Schools - Elms Environmental Education Center	Southern	St. Mary's	Agriculture Community Engagement Environmental Education Energy Forestry Restoration	<ol style="list-style-type: none"> 1. Assist teachers in preparing and delivering hands-on, curriculum-embedded project-based environmental education on school grounds and in the classroom. 2. Provide field-based education programs for PreK through 12th grade students at the Elms, Sotterley, and other partner sites. 3. Build and maintain infrastructure to promote environmental education at schools, field sites, and community spaces including outdoor classrooms, native plant nursery, demonstration gardens, nature trails, public access to natural resources, and schoolyard habitats. 4. Develop community outreach initiatives with special efforts to serve socially stressed communities through schools and outside partnerships. 5. Assist DNR with site assessments and wetland delineation.
Stevenson University	Central	Baltimore	Community Engagement Energy	<p>Join a small team working to promote environmental stewardship at SU! You will assist with current outreach/service projects and help us grow and build capacity through some of the following possible projects based on your interests:</p> <ol style="list-style-type: none"> 1. Lead existing projects and develop additional campus and community outreach/service projects and educational materials. 2. Choose from a variety of new projects such as the creation of the creation of a Campus Food Recovery Network chapter or a campus sustainability audit, and/or develop new initiatives. 3. Choose to participate in field research activities. 4. Choose to assist with professional development workshops for colleges.
Sultana Projects, Inc.	Eastern Shore - upper	Kent	Community Engagement Environmental Education	We are seeking an applicant interested in K-12 (and some adult) environmental education. During warm weather months (late April-October) this person will assist our Director of Paddling Programs to facilitate kayak and canoe based programs, primarily on the Eastern Shore. During the school year, this consists of educational programs for K-12 students, but also includes the opportunity to assist with weekend "Public Paddles" as well as multi-day eco-travel expeditions for adults. Individuals wishing to fill this position should be comfortable on the water, solid swimmers, in good physical condition, and have experience kayaking and canoeing.
Susquehanna Heritage Corporation	PA	PA	Community Engagement Environmental Education	<p>Focus of the position is to help enhance the newly launched Visitor Contact Station for the Captain John Smith Chesapeake National Historic Trail (CAJO) at the Zimmerman Center, develop CAJO programming to be delivered at Columbia Crossing River Trails Center, and support development of an interpretive and management Master Plan to connect the Zimmerman Center, Columbia Crossing, and Native Lands County Park.</p> <ol style="list-style-type: none"> 1. Delivering and developing educational programs focused on natural and Native American heritage associated with CAJO at the Zimmerman Center Visitor Contact Station and Columbia Crossing River Trails Center. Includes coordination of the Canoemobile and Every Kid in the Park field trips. 2. Support the Heritage Programs at the Zimmerman Center and Columbia Crossing and associated interpretive materials. 3. Work with NPS staff to establish a Volunteers in Parks (VIP) program to support visitor services at the Zimmerman Center CAJO Visitor Contact Station. 4. Support staff with development of an interpretive and management Master Plan to connect the Zimmerman Center, Columbia Crossing, and Native Lands County Park.

Town of Edmonston	Capitol	Prince George's	Community Engagement	Edmonston is noted for its green initiatives, ranging from their two municipal green streets to its three edible forests, from its urban farm to thirteen rain gardens in its less than one mile square area. But Edmonston needs help in engaging the community about these initiatives as well as new initiatives such its environmental summer school program for students, a walking trail between two of the town's businesses and design of the town's third green street.
Town of Forest Heights	Capitol	Prince George's	Community Engagement Energy	The Corps Member for the Town of Forest Heights will assist with sustainable initiatives and programs. Our current initiatives are the community garden, green streets, and wellness programs for all ages. They will also assist with ongoing special events to engage the community.
Town of North Beach	Southern	Calvert	Community Engagement Energy Restoration	We are seeking an energetic and environmentally focused individual that wants to be a part of a town that creates sustainable programs and events along the Bay. They will assist in marketing those efforts through social media, website and creating a marketing campaign to help the environment.
U.S. Fish and Wildlife Service	Central	Anne Arundel	Agriculture Community Engagement Environmental Education Energy Forestry Restoration	Our goal is to provide the Corps Member with a broad experience. The CCC Volunteer will be involved with: 1) habitat restoration; 2) habitat assessment; 3) wildlife surveys and monitoring; 4) habitat protection; 5) environmental education and outreach. CCC Volunteers will be asked to assist with these projects in Maryland, Delaware, and the District of Columbia with the largest emphasis on projects in Maryland. Our volunteers have the opportunity to participate in local, regional and national training that will enhance their abilities, and prepare them for the future beyond their CCC year.
U.S. National Park Service	Central	Anne Arundel	Community Engagement Environmental Education	The Captain John Smith Chesapeake National Historic Trail is seeking a Corps Member to collaborate with the National Park Service and the Accokeek Foundation at Piscataway Park to assist with research and development of a variety of interpretive and educational programs related to American Indians of the Chesapeake, particularly of the Piscataway peoples of Southern Maryland along the middle Potomac River. This is a lucrative opportunity to gain exposure and contribute to the growing body of knowledge around the concept of Indigenous Cultural Landscapes in the Chesapeake Bay watershed.
University System of Maryland Foundation- The Environmental Finance Center	Capitol	Prince George's	Agriculture Community Engagement Energy Restoration	Will be assigned to the Sustainable Maryland (SM) program, a free and voluntary program designed to support Maryland's communities as they look for cost-effective and strategic ways to protect their natural assets and revitalize their communities. Corp Volunteers will: 1. Support registered communities with completing SM action items such as developing a watershed restoration plan, starting a community garden, or creating an energy baseline. 2. Work with SM staff to review certification applications. 3. Develop effective sustainability case studies. 4. Assist SM staff with communications and outreach.
Waterfront Partnership of Baltimore, Inc.	Central	Baltimore City	Community Engagement	Healthy Harbor is an Initiative of the Waterfront Partnership, located in Baltimore's beautiful Harbor East. Mr. Trash Wheel is our most famous project, but we do much more to keep our water and streets clean: Become familiar with our target neighborhoods by providing outreach and education to community leaders; Get creative with our Alley Makeover program, utilizing art as a community-organizing tool; Play a key role in executing our oyster gardening program. Additionally, our partnerships with non-profits and city government provide numerous networking opportunities. Open-mindedness, flexibility, and genuine appreciation for diversity in urban culture are necessary for this position.

Anne Arundel Watershed Stewards Academy	Central	Anne Arundel	Community Engagement Restoration	<p>RainScaping Corps Member: work directly with WSA Restoration Coordinator to support Steward restoration projects. Some highlights of this position include: assisting in the management and development of stormwater restoration projects, monitoring BMPs, performing Residential Site Assessments, coordinating the distribution and installation of Backyard Buffers tree seedlings and assisting with the planning of the WSA Certification Course, continuing education and the Annual Conference.</p> <p>Communications Corps Member: work directly with the WSA Operations Coordinator. This individual will be challenged to increase the communications with and collaboration among Master Watershed Stewards. He/she will help to photo and video document events, drum up excitement about workshops, events and Steward projects and help build relationships among Stewards. Some highlights of this position include: social media and communications support, supporting Steward community outreach and engagement, assisting with the planning of social activities, assisting with the planning of the WSA Certification Course, continuing education and the Annual Conference.</p>
