

Prince George's County Community Gardens Mini Grant Program- Sketch Guidelines

The Prince George's County Community Gardens Mini Grant Program requires all applicants to submit a sketch of the proposed garden area. The second page includes grid lines and a scale as a tool for your use. You are welcome to develop your own template which can be hand-drawn or created digitally. Please refer to the guidelines for Design Elements outlined below.

Design Elements to Include in your Sketch

- Garden area (total square feet)
 - *As a reminder, the minimum size is 600 sq. ft. (1,000 sq. ft. for food forests)*
- Location of water source
 - Include distance from the garden (recommended to be within 100 linear feet)
- Street Name
- Plant species, quantities, and spacing distances
 - Please include labels/a key for your plant species
 - *As a reminder, eligible plants include plants native to Maryland, nonnative, noninvasive edible plants, and plants used to produce fiber, basket materials, and teas/tinctures or other herbal products*
- Buildings/structures with distances from the garden
- Indicate if raised bed or in ground
 - *As a reminder, Gardens can be planted in raised beds or directly into the ground. Please use the example below to determine how your garden will be planted.*

Scale: $\frac{1}{4}$ (one square) = 1 foot
