Introduction

The [Chesapeake Bay Trust](#) (Trust) is a nonprofit, grant-making organization dedicated to improving the bays, streams, rivers, forests, parks, and other natural resources of our local systems, from the Chesapeake to the Coastal Bays to the Youghiogheny River. The Trust, supported in large part by Maryland's Chesapeake Bay License Plate and partnerships with other regional funders, engages and empowers diverse groups to take actions that enrich natural resources and local communities of the Chesapeake Bay region. Since 1985, the Trust has awarded over \$130 million in grants to municipalities, nonprofit organizations, schools, and public agencies throughout Maryland and the Chesapeake Bay watershed.

Program Goals and Eligible Project Types

The Chesapeake Bay Trust will entertain requests to sponsor events, such as conferences, festivals, and forums that allow the Trust to advance our mission. Generally, the Trust sponsors events through this opportunity that are intended for audiences of 100 people or greater.¹ The event must have a programmatic or marketing goal as described in this section.

The Trust is committed to the advancement of diversity and inclusion in its award-making and environmental work, recognizing that the watershed will not be restored without a broad range of communities recognizing and investing in their natural resources, reaping the benefits of a healthier environment and the economic and health co-benefits that come with that investment. As a result, the Trust strongly encourages and will look favorably on applications directly from underrepresented groups, and for projects that increase awareness and participation of communities that are traditionally underrepresented, such as communities of color. For a full description of the Trust's efforts to engage under-engaged groups, see our strategic plan at www.cbtrust.org/strategic-plan and <https://cbtrust.org/diversity-inclusion/>.

The event must accomplish one or both of the following goals to be considered for sponsorship under this opportunity:

- Track 1: Programmatic Value – Programmatic requests will generally be considered at the \$500 to \$750 level. A programmatic connection to the [Trust's mission](#) exists if the event:
 - Is targeted towards a specific audience, with the goal of increased awareness among event participants about issues pertaining to restoration and protection of the natural resources of the Chesapeake and/or Maryland's other watersheds or
 - Encourages and provides tools/resources to event participants to change behavior that improves or protects these natural resources.

Examples of events with programmatic outcomes are conferences about water quality, habitat, green space, and other watershed issues or forums about restoration and protection solutions in which the audience emerges from the event with a better understanding of natural resource problems and solutions to those problems. Fundraising events will be considered on a case-by-case basis and should be submitted under the Marketing track.

- Track 2: Marketing Value – Marketing requests will generally be considered at the \$250 to \$500 sponsorship level. A marketing connection to the [Trust's mission](#) exists if the event:

¹ For events with smaller audiences, in which the programming is likely more focused, requesters are encouraged to consider the Trust's grant programs, particularly our Outreach and Restoration Grant Program and Community Engagement and Restoration Mini Grant Program, which is only for relatively new applicants.

- Engages audiences likely to participate in the following revenue streams:
 - The [“Treasure the Chesapeake”](#) license plate program;
 - The [Chesapeake and Endangered Species Fund](#) Tax Check-off on the Maryland State income tax form;
 - The [Maryland Outdoor Recreation and Clean Water Fund](#), where voluntary contributions are made when purchasing a Maryland fishing and hunting licenses, and/or registering a boat online; and
 - [Healing, and Hunting, and Fishing Fund](#) where hunters and anglers who obtain licenses online through the Maryland Department of Natural Resources’ (DNR) Compass registration system can choose to make a contribution to support the Fund

An example of an event type with marketing value to the Trust is festivals with large attendance of individuals or communities with characteristics that make them likely to participate in the license plate and/or tax check-off programs. The applicant will be asked to provide hypotheses about why he or she believes the audience exhibits this likelihood.

Eligible Project Location

This program funds projects in Maryland and throughout the Chesapeake Bay watershed, including DE, DC, PA, VA, and WV, when there is a focus on Maryland audiences.

Evaluation Criteria

The following criteria will be used by internal expert reviewers to evaluate applications under the Sponsorship Program:

- **Consistency with Request for Proposals (RFP):** Is the event consistent with the intent and goals of the program? To what degree will the proposed event or sponsored activity provide programmatic or marketing value?

Budget and Financial Reporting Requirements

Sponsorship funds may be used to offset overall costs of an event. The Trust will ask for a budget for the event, including total matching funds provided from all sources, but will not ask the applicant to attribute funds to individual line items.

The Trust welcome requests from the following organizations:

- 501(c)3 Private Nonprofits;
- Faith-based;

Financial Management Spreadsheet – Application Budget Upload

You will be asked to upload your budget using the “Application Budget” worksheet of the Chesapeake Bay Trust’s **Financial Management Spreadsheet (FMS)**, an excel file template. The template can be found by visiting <https://cbtrust.org/forms-policies/> where you can also watch a video with instructions on how to complete the FMS.

For your budget request:

- Add your budget for the event. You do not need to attribute funds to individual budget line items.

Financial Management Spreadsheet – Application Budget Information

This online application component will ask you to enter the request total. This total will be automatically calculated in the FMS Application Budget, so you will only need to copy and paste the value from the FMS to the online application.
